The U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA) is pleased to announce that it is seeking applications for funding under the Second Chance Act Family-Based Offender Substance Abuse Treatment Program. This program furthers the Department's mission by providing resources to states, units of local government, and federally-recognized Indian tribal governments to establish or enhance family-based residential substance abuse treatment programs in correctional facilities including recovery and family supportive services.

**Second Chance Act Family-Based Adult Offender Substance Abuse Treatment Program FY 2012 Competitive Grant Announcement**

**Eligibility**

Applicants are limited to states, units of local government, and federally-recognized Indian tribal governments (as determined by the Secretary of the Interior).

**Mandatory Certification Requirements (Statement of Assurance and Service Provider Licensing/Accreditation/ Certification Documentation):** All applicants must certify that any treatment program proposed in the application is clinically appropriate and will provide comprehensive treatment.

Applicants must also provide official documentation that all collaborating service provider organizations are in compliance with all requirements for licensing, accreditation, and certification, including state, local (city and county), and tribal requirements, as appropriate. See Appendix 2 on page 31 for more information.

**Mandatory Coordination Requirement:** If the applicant is not the Single State Agency (SSA) for Substance Abuse Services, applicants must demonstrate that the proposal has been developed in consultation with the SSA. Applications submitted by federally-recognized tribes must submit a Tribal Authorizing Resolution. See www.samhsa.gov/Grants/ssadirectory.pdf for a listing of the SSA entities.

BJA also administers the Residential Substance Abuse Treatment (RSAT) for State Prisoners Program, the Justice and Mental Health Collaboration Program, the Second Chance Act Adult Offender Reentry Program for Planning and Demonstration Projects, and the Second Chance Act Reentry Program for Adult Offenders with Co-Occurring Substance Abuse and Mental Health Disorders. If the applicant jurisdiction is, or becomes, a recipient of funds under any of these other programs for the purposes of provision of treatment and/or reentry services for incarcerated offenders, the applicant should clearly address how these initiatives will be strategically coordinated within the eligible target population to maximize efficiency for program participants, effectiveness, sustainability, and avoid duplication of resources.
BJA may elect to make awards for applications submitted under this solicitation in future fiscal years, dependent on the merit of applications and on the availability of appropriations in future years.

**Deadline**

Applicants must register with [Grants.gov](https://grants.gov) prior to submitting an application. (See “How To Apply,” page 16. All applications are due by 11:59 p.m. eastern time on April 24, 2012. (See “Deadlines: Registration and Application,” page 5).

**Contact Information**

For technical assistance with submitting the application, contact the Grants.gov Customer Support Hotline at 800–518–4726 or 606–545–5035 or via e-mail to support@grants.gov.

**Note:** The [Grants.gov](https://grants.gov) Support Hotline hours of operation are 24 hours a day, 7 days a week, except federal holidays.

For assistance with any other requirement of this solicitation, contact the BJA Justice Information Center at 1–877–927–5657, via e-mail to JIC@telesishq.com, or by live web chat. The BJA Justice Information Center hours of operation are 8:30 a.m. to 5:00 p.m. eastern time, Monday through Friday, and 8:30 a.m. to 8:00 p.m. eastern time on the solicitation close date.

**Grants.gov number assigned to announcement:** BJA-2012-3150

**Release date:** February 23, 2012

Second Chance Act
Family-Based Adult Offender Substance Abuse Treatment Program
(CFDA #16.812)

Overview

The Second Chance Act of 2007 (Pub. L. 110-199) provides a comprehensive response to the increasing number of incarcerated adults and juveniles who are released from prison, jail, and juvenile residential facilities and returning to communities. There are currently over 2.3 million individuals serving time in our federal and state prisons, and millions of people cycling through local jails every year. Ninety-five percent of all offenders incarcerated today will eventually be released and will return to communities. The Second Chance Act will help ensure that the transition individuals make from prison, jail, or juvenile residential facilities to the community is successful and promotes public safety.

The Bureau of Justice Statistics (BJS) reported that in 2004, 53 percent of state inmates were abusing or dependent on drugs in the year before their admission to prison, and 32 percent of state inmates said they had committed their current offense while under the influence of drugs. In 2007, parents held in the state prisons—52 percent of state inmates—reported having an estimated 1.7 million children under the age of 18, an increase of 80 percent from 2001. Since 1991, the number of children with a mother in prison has more than doubled, up 131 percent, and the number of children with a father in prison has grown by 77 percent. Among state prisoners, 59 percent of males and 63 percent of females being held for drug-related offenses were parents.

The Second Chance Act Programs are designed to help communities develop and implement comprehensive and collaborative strategies that address the challenges posed by offender reentry and recidivism reduction. “Reentry” is not a specific program, but rather an evidence-based process that starts when an offender is initially incarcerated and ends when the offender has been successfully reintegrated in his or her community as a law-abiding citizen. The reentry process includes the delivery of a variety of evidence-based program services for every program participant in both a pre- and post-release setting designed to ensure that the transition from prison or jail to the community is safe and successful.

Collaboration with Other Federal Agencies

BJA and the Office of Juvenile Justice and Delinquency Prevention (OJJDP) are collaborating closely on the Second Chance Act implementation. BJA and OJJDP will also continue to collaborate with the National Reentry Resource Center (NRRC) to ensure that both juvenile and adult reentry efforts are supported. For more information on BJA’s implementation of the Second Chance Act initiatives and Frequently Asked Questions, visit BJA’s Second Chance Act web page at www.bja.gov/grant/SecondChance.html. For more information on Second Chance Act program implementation specifically administered by OJJDP visit www.ojjdp.gov/.

Established by FY 2009 Second Chance Act appropriations, the NRRC serves as the training and technical assistance (TTA) provider for all Second Chance Act grantees. In addition, the NRRC provides education, TTA to states, tribes, territories, local governments, service providers, nonprofit organizations, and corrections institutions working on reentry. The NRRC is
Pay for Success

Pay for Success projects represent a new way to potentially achieve positive outcomes with the criminal justice population at a lower cost to governments. Under a typical Pay for Success model, service providers either directly or through an intermediary organization secure capital to fund their operations and achieve specified outcomes for a predefined target population. The funding organizations only recoup their investment at such time that the outcomes for the target population have been achieved and that achievement has been verified via an evaluation methodology mutually agreed upon by the government participant and the investors. This model is designed to be a low-cost, low-risk way for governments to achieve outcomes for certain populations. BJA is offering priority consideration for applicants proposing to incorporate a Pay for Success model into their offender reentry program. Under this priority, Second Chance grants may be used (1) to fund operations if a state, local or other organization will pay for outcomes after they are achieved; or (2) to pay for outcomes achieved within the grant period. Note that all standard financial and administrative restrictions will apply (for example, grant funds will be unavailable to promote or fund separate financial instruments such as bonds). For more information, see the Pay for Success Criteria in Appendix 3 and “Paying for Success” at the following web sites:

- www.whitehouse.gov/omb/factsheet/paying-for-success.
- www.whitehouse.gov/blog/2012/01/24/pay-success-new-results-oriented-federal-commitment-underserved-americans
- payforsuccess.org

Deadlines: Registration and Application

Applicants must register with Grants.gov prior to submitting an application. OJP encourages applicants to register with Grants.gov several weeks before the application submission deadline. The deadline to apply for funding under this announcement is 11:59 p.m. eastern time on April 24, 2012. See the “How To Apply” section on page 16 for more details. Note that while the deadline for submission is 11:59 p.m. eastern time on April 24, 2012, staff assistance through the BJA Justice Information Center is only available until 8:00 p.m. eastern time (see “Contact Information” on the title page for more information about BJA’s Justice Information Center).

Eligibility

Refer to the title page for eligibility under this program.

NOTE: BJA is seeking applications to meet the treatment needs of inmates with substance abuse disorders. BJA also administers the RSAT Program which enhances the capability of states, units of local government, and tribes to provide incarcerated inmates with residential substance abuse treatment, incorporate this treatment into reentry planning, and deliver community-based treatment and other broad-based aftercare services. RSAT allocations follow a formula that provides each state and territory with a base amount plus an amount proportional to the ratio that its prison population bears to the total prison population of all states and territories. For information about your state’s latest RSAT allocation and the facilities where
RSAT funded services are already available, contact the State Administering Agency www.ojp.usdoj.gov/saa/index.htm.

Second Chance Act Family-Based Adult Offender Substance Abuse Treatment Program—Specific Information

Research has shown that children may benefit from maintaining healthy relationships with their incarcerated parents. Strong parent-child relationships may aid in children’s adjustment to their parents’ incarceration and help to mitigate many of the negative outcomes for children that are associated with parental incarceration. Maintaining contact also helps the incarcerated parent by improving the reentry process and reducing recidivism, which would likely benefit the child.

The Second Chance Act Family-Based Adult Offender Substance Abuse Treatment Program (Section 113) is designed to implement or expand family-based treatment programs for adult individuals (18 years and over) in prison or jails, that provide comprehensive substance abuse treatment and parenting programs for incarcerated parents (including non-custodial parents) of minor children; provides treatment and other services to the participating offenders’ minor children and family members; and during reentry back into the community. Programming must be targeted to inmates with minor children and include services for these inmates, their minor children, and other family members that provide comprehensive responses to the increasing number of parents who are incarcerated as well as their families.

Goals and Objectives

The goals of the Family-Based Adult Offender Substance Abuse Treatment Program are to increase public safety and reduce recidivism by providing more effective and successful reentry for offenders. The objective of this program is to provide comprehensive responses through planned, expanded, or implemented family-based substance abuse treatment programs.

These programs should provide substance abuse treatment and parenting services for offenders with minor children, and also include outreach to families and provision of treatment services to children and other family members of participant offenders. These components should include both pre- and post-release services for every adult program participant, and provide services for their families.

Approved Uses of Award Funds

Grants under this solicitation are available for the development, implementation, and expansion of family-based substance-abuse treatment programs for offenders who have minor children, and also include outreach to families and provision of treatment and other services to children and other family members of participant offenders. However, as required by the Second Chance Act, these programs are unavailable for any such parent for whom there is reasonable evidence to believe engaged in domestic violence or child abuse.

Fundamental Principles of Evidence-Based Correctional Practice. The primary objective of the Second Chance Act is to reduce recidivism. Based upon reliable research findings, there are six fundamental principles of evidence-based correctional practice that are widely accepted as strategies to reduce future criminal behavior. Applicants are required to clearly articulate how the following six principles are integrated into their program design:
1. Objectively Assess Criminogenic Risks and Needs
2. Enhance Intrinsic Motivation
3. Target Higher-Risk Offenders
4. Address Offenders’ Greatest Criminogenic Needs
5. Use Cognitive-Behavioral Interventions
6. Determine Dosage and Intensity of Services

Appendix 1 provides additional information about these six principles and what applicants should consider to ensure proposed programs are built on principles of effective practice.

Program Design Elements

Applicants should address the following program design elements in the proposal:

1. **Use Actuarial-Based Assessment Instruments for Reentry Planning**
   - There is strong evidence from the research literature that offender populations should be assessed to determine criminogenic risk and needs factors and determine supervision levels and services so that appropriate interventions can be delivered. Use of assessment instruments that are reliable, validated, and normed for a specific population increase the chances that individuals will be matched with the appropriate type of treatment and reentry services. Applicants are strongly urged to base reentry planning on risk and needs assessment tools.

2. **Target Criminogenic Needs that Affect Recidivism**
   - While offenders reentering the community have a variety of treatment and behavioral needs, which are themselves risk factors for future offending, criminogenic needs are the dynamic risk factors mostly closely associated with offending behavior. Criminogenic risk and needs factors include history of anti-social behavior; anti-social personality pattern; anti-social cognition; anti-social associates; family and/or marital; school and/or work; leisure and/or recreation; and substance abuse. Behavioral change is possible if offenders are provided with tailored, sequential programming that addresses individual criminogenic needs that affect the risk of recidivism. Applicants are strongly urged to provide treatment interventions that target criminal thinking, especially for higher-risk offenders.

3. **Provision of Evidence-Based Substance Abuse and Mental Health Treatment Services**: Applicants are strongly urged to provide substance abuse and mental health treatment practices and services that have a demonstrated evidence base and that are appropriate for the target population. Applicants should identify the evidence-based practices that are effective for their target population.

---

1 Applicants can also find information on evidence-based practices in the Substance Abuse and Mental Health Services Administration’s (SAMHSA) *Guide to Evidence-Based Practices* available at [www.samhsa.gov/ebpwebguide](http://www.samhsa.gov/ebpwebguide). The *Guide* provides a short description and a link to dozens of web sites with relevant evidence-based practices information — either specific interventions or comprehensive reviews of research findings. Please note that SAMHSA’s *Guide* also references the National Registry of Evidence-Based Programs and Practices (NREPP), a searchable database of interventions for the prevention and treatment of mental and substance use disorders. NREPP is intended to serve as a decision support tool, not as an authoritative list of effective interventions. *Being included in NREPP, or in any other resource listed in the Guide, does not mean an intervention is*
practice being proposed for implementation, identify and discuss the evidence that shows that the practice is effective; and discuss the population(s) for which this practice has been shown to be effective and show that it is appropriate for the proposed target population.

Funds may be used for the development, implementation, and expansion of family-based substance abuse treatment programs (which may include nursery programs within correctional facilities) or residential substance abuse treatment for parents (which includes outreach and services to minor children and family members in the community).

Proposed programs should require urinalysis and/or other proven reliable forms of drug and alcohol testing for program participants, including both periodic and random testing, and for former participants while they remain in the custody, or under community supervision, of the state, local, or tribal government.

Prison-based programs must provide residential treatment facilities set apart—in a completely separate facility or dedicated housing unit in a facility exclusively for use by participants—from the general correctional population. Offenders included in prison-based programs must be within 6–12 months before scheduled release to the community. Applicants must indicate how treatment will begin prior to release and be continued after participating offenders are released into the community.

4. **Family-Based and Pharmacological Drug Treatment and Other Services**: Applicants are encouraged to utilize pharmacological drug treatment services, as appropriate, as part of any drug treatment program offered to offenders in prison or jail. Applicants are encouraged to develop a comprehensive response to offender and family needs, which can include: substance abuse treatment, early child intervention services, family counseling, legal services, medical care, respite care and mutual support services, child maltreatment prevention, mental health services, nursery and preschool, parenting skills training, pediatric care, physical therapy, prenatal care, sexual abuse therapy for family members, relapse prevention, transportation, and vocational or general educational development (GED) training.

5. **Transition Planning Procedures**: Developing and implementing transition planning procedures to ensure linkages to services and benefits is a critical part of the reentry process. Applicants should consider institutionalizing appropriate information sharing with relevant community corrections and behavioral health partner agencies, assessing insurance and benefit status (including Medicaid, SSI, SSDI, veterans benefits, and other government entitlement programs) and eligibility, and assisting inmates in the insurance/benefits application process.

6. **Support of a Comprehensive Range of Recovery Support Services**: Applicants are encouraged to make available a comprehensive range of programs, including services that employ the cognitive, behavioral, and social learning techniques of modeling, role playing, reinforcement, resource provision, and cognitive restructuring; educational, literacy,
vocational, and job placement services, including supported employment; ongoing evidenced-based substance abuse (including alcohol abuse); and mental health disorder treatment; housing, physical health care services; veteran-specific services as applicable; programs that encourage safe, healthy, and responsible family and parent-child relationships and enhance family reunification, as appropriate; and, mentoring.

7. **Provision of Sustained Aftercare, Case Planning/Management in the Community:** Applicants are strongly urged to use consistent pre- and post-release case management and supervision that is sustained over a period of at least 6 months from the time of release and is especially responsive to the offender’s transition from incarceration to the community. Aftercare services must involve coordination between the correctional treatment program, community supervision program, and other social service and rehabilitation programs, such as education and job training, parole supervision, halfway houses, self-help, and peer group programs. Post-release treatment and aftercare must be coordinated, including information sharing, and in-reach allowed for community-based treatment providers.

8. **Provision of Community Supervision Services which Follow Evidence-Based Practices:** Funds may be used to provide evidence-based community supervision services including the development and supervision of individualized case plans which stem from risk and needs assessments; the use of graduated responses including the employment of structured, swift, and incremental responses to violations; structuring supervision caseloads which reflect the level of risk and needs for the target population; and staff development including training in effective offender management techniques.

Applicants are encouraged to consider a partnership with a local research organization that can assist with data collection, performance measurement, and local evaluations. One resource that applicants may be interested in using is the e-Consortium for University Centers and Researchers for Partnership with Justice Practitioners. The purpose of this e-Consortium is to provide a resource to local, state, federal, and other groups who seek to connect to nearby (or other) university researchers and centers on partnerships and projects that are mutually beneficial to the criminal justice community. The e-Consortium can be found online at [www.gmuconsortium.org](http://www.gmuconsortium.org/).

**Priority Considerations**

Priority consideration will be given to applicants that can demonstrate the following considerations in their program design:

- Target population of medium- to high-risk offenders, as identified through use of a validated risk and needs assessment instrument, who are the parents of minor children and have been diagnosed with drug dependence.
- Focus on target populations that include female offenders who are parents of minor children.
- Focus on geographic areas with high rates of offenders returning from prisons or jails.
- Clearly demonstrate how the six evidenced-based strategies are incorporated into the project program design (see Appendix 1).
• Provide for an independent evaluation of reentry programs that include, to the maximum extent possible, random assignment and controlled studies to determine the effectiveness of such programs and the services provided, including the community corrections approaches to supervision.

• Provide a baseline recidivism rate for the proposed target population including documentation to support the development of the rate.

• Incorporate a “Pay for Success” model into their projects.

Legal Requirements

Applicants must certify that any treatment program proposed in the application is clinically appropriate, will provide comprehensive treatment, and has been developed in coordination with the SAA for Substance Abuse Services.

Applicants should also provide official documentation that all collaborating service provider organizations are in compliance with all requirements for licensing, accreditation, and certification, including state, local (city and county), and tribal requirements, as appropriate. A program for which a grant is made shall comply with the following requirements:

1. The program shall integrate techniques to assess the strengths and needs of immediate and extended family of the incarcerated parent to support a treatment plan of the incarcerated parent;
2. The program shall ensure that each participant in that program has access to consistent and uninterrupted care if transferred to a different correctional facility within the state or other relevant entity; and
3. The program shall be located in an area separate from the general population of the prison.

Definitions

• **Recidivism**: The Second Chance Act requires that recidivism be a measure of success in funded programs. For purposes of this solicitation, recidivism is defined as “a return to prison and/or jail with either a new conviction or as the result of a violation of the terms of supervision within 12 months of initial release.

• **Official Documentation**: Official documentation is a copy of each service provider organization’s license, accreditation, and certification. Documentation of accreditation will not be accepted in lieu of an organization’s license. A statement by, or letter from, the applicant organization or from a provider organization attesting to compliance with licensing, accreditation, and certification or that no licensing, accreditation, and certification requirements exist does not constitute adequate documentation.

• **Prison-Based Programs**: Prison-Based programs are those that occur in a prison or “behind the walls” programs. Prison-Based programs must provide residential treatment facilities set apart—in a completely separate facility, or dedicated housing unit in a facility exclusively for use by participants—from the general correctional population. Offenders included in prison-based programs must be within 6-12 months before scheduled release to the community.
• **Family:** For the services to be provided to an offender’s family under this program, “family” is broadly defined and could include but are not limited to the following: a grandparent or sibling who is raising, responsible for, or has guardianship, of the offender’s minor child; the other non-incarcerated parent; the offender’s current or former intimate partner; a co-parent, and other family members dependent upon the offender’s circumstance.

• **Family-Based Substance Abuse Treatment:** For the purposes of this solicitation family-based substance abuse treatment means a state licensed or certified program that is residentially-based that enables parents and their children to participate in comprehensive substance abuse treatment services for a period no less than six months that includes on site or by referral: gender specific, trauma-informed substance abuse treatment services, children’s early intervention services, family counseling, continuing care, legal services, medical care, mental health services, nursery and preschool, parenting skills training, pediatric care, prenatal care, sexual abuse therapy, relapse prevention, transportation, and job or vocational training or classes leading to a secondary school diploma or a certificate of general equivalence.

• **Evidence-Based Programs or Practices (EBP):** OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence (generally obtained through one or more outcome evaluations). Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based. OJP’s CrimeSolutions.gov website is one resource that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

**Resources for Evidence-Based Practices:** In addition to CrimeSolutions.gov, applicants can find information on evidence-based practices in the Substance Abuse and Mental Health Services Administration’s (SAMHSA) Guide to Evidence-Based Practices on the Web at [www.samhsa.gov/ebpwebguide](http://www.samhsa.gov/ebpwebguide). See the footnote on page 7 for further information.

In addition to the web site noted above, applicants may provide information on research studies to show that the services/practices proposed to be implemented are evidence-based. This information is usually published in research journals, including those that focus on minority populations. If this type of information is not available, applicants may provide information from other sources, such as unpublished studies or documents describing formal consensus among recognized experts.
Amount and Length of Awards

BJA anticipates that it will make up to 12 awards of up to $300,000 each for a 24-month project period with an anticipated start date of October 1, 2012, and with the possibility of no-cost extensions. The applicant’s budget materials should reflect the entire 24-month period.

Applicants must apply in one of two categories, depending upon their jurisdictional status.

**Category 1, Competition ID BJA-2012-3151**: Units or components of state and local government agencies serving incarcerated adults.

**Category 2, Competition ID BJA-2012-3152**: Federally recognized American Indian tribes and Alaska Native tribes and/or tribal organizations serving incarcerated adults

All awards are subject to the availability of appropriated funds and any modifications or additional requirements that may be imposed by law. By law, no less than 5 percent of the funds available for the Family-Based Offender Substance Abuse Treatment Program will be used for grants to Indian tribes.

Note: As indicated above, priority consideration will be given to those applications that provide a baseline recidivism rate for the proposed target population, including documentation to support the development of the rate. All grantees will be required to provide a baseline recidivism rate upon award. See the Selection Criteria on page 22, for more information.

BJA advises applicants that in FY 2012, BJA is also supporting the Second Chance Act Demonstration Field Experiment: Fostering Desistance through Effective Supervision competitive solicitation, as well as potentially providing limited continuation funding for reentry programs competitively selected in previous years that have demonstrated strong progress. As a result of potentially limited continuation for existing awardees, applicants should expect more rigorous competition for funding through this solicitation

Budget Information

**Limitation on Use of Award Funds for Employee Compensation; Waiver**

With respect to any award of more than $250,000 made under this solicitation, federal funds may not be used to pay total cash compensation (salary plus bonuses) to any employee of the award recipient at a rate that exceeds 110 percent of the maximum annual salary payable to a member of the Federal Government’s Senior Executive Service (SES) at an agency with a Certified SES Performance Appraisal System for that year. (The 2012 salary table for SES employees is available at [www.opm.gov/oca/12tables/indexSES.asp](http://www.opm.gov/oca/12tables/indexSES.asp).) Note: A recipient may compensate an employee at a higher rate, provided the amount in excess of this compensation limitation is paid with non-federal funds. (Any such additional compensation will not be considered matching funds where match requirements apply.)

The limitation on compensation rates allowable under an award may be waived on an individual basis at the discretion of the Assistant Attorney General (AAG) for OJP. An applicant that wishes to request a waiver must include a detailed justification in the budget narrative of its application and submit a letter of request for the waiver with their application. The letter must be signed by the Authorized Representative. Unless the applicant submits a waiver request with
sufficient justification, the applicant should anticipate that OJP will request the applicant to adjust and resubmit its budget.

Waiver Request: If a waiver is sought by the applicant the justification should include: the particular qualifications and expertise of the individual, the uniqueness of the service being provided, the individual’s specific knowledge of the program or project being undertaken with award funds, and a statement explaining that the individual’s salary is commensurate with the regular and customary rate for an individual with his/her qualifications and expertise, and for the work that is to be done.

**Minimization of Conference Costs**
No OJP funding can be used to purchase food and/or beverages for any meeting, conference, training, or other event. Exceptions to this restriction may be made only in cases where such sustenance is not otherwise available (i.e., extremely remote areas), or where a special presentation at a conference requires a plenary address where there is no other time for sustenance to be obtained. Such an exception would require prior approval from OJP. This restriction does not apply to water provided at no cost, but does apply to any and all other refreshments, regardless of the size or nature of the meeting. Additionally, this restriction does not impact direct payment of per diem amounts to individuals in a travel status under your organization’s travel policy.

Updated Department of Justice and OJP guidance on conference planning, minimization of costs, and conference cost reporting will be forthcoming and will be accessible on the OJP website at [www.ojp.usdoj.gov/funding/funding.htm](http://www.ojp.usdoj.gov/funding/funding.htm).

**Costs Associated with Language Assistance (if applicable)**
If an applicant proposes a program or activity that would deliver services or benefits to individuals, the costs of taking reasonable steps to provide meaningful access to those services or benefits by individuals with limited English proficiency may be allowable costs. Reasonable steps to provide meaningful access to services or benefits may include interpretation or translation services where appropriate.

For additional information, see the "Civil Rights Compliance" section of the OJP "Other Requirements for OJP Applications" web page ([www.ojp.usdoj.gov/funding/other_requirements.htm](http://www.ojp.usdoj.gov/funding/other_requirements.htm)).

**Match Requirement**
This solicitation does not require a match. However, if a successful application proposes a voluntary match amount, the match amount incorporated into the OJP-approved budget becomes mandatory and subject to audit.

**Performance Measures**
To assist the Department in fulfilling its responsibilities under the Government Performance and Results Act of 1993 (GPRA), Public Law 103-62, and the GPRA Modernization Act of 2010, Public Law 111–352, applicants that receive funding under this solicitation must provide data that measure the results of their work done under this solicitation. Any award recipient will be required, post award, to provide the data requested in the “Data Grantee Provides” column so that OJP can calculate values for the “Performance Measures” column.
Award recipients will be required to provide the relevant data by submitting quarterly performance metrics through BJA’s online Performance Measurement Tool (PMT) located at [https://www.bjaperformancetools.org](https://www.bjaperformancetools.org). The following measures are examples of some of the core performance measures for the Second Chance Family-Based Program, but applicants should examine the complete list at: [https://www.bjaperformancetools.org/help/SCAFamilyBasedQuestionnaireNarrativeQuestions.pdf](https://www.bjaperformancetools.org/help/SCAFamilyBasedQuestionnaireNarrativeQuestions.pdf).

Submission of performance measures data is not required for the application. Instead, applicants should discuss in their application their proposed methods for collecting data for performance measures. Refer to the section “What an Application Should Include” on page 18 for additional information.

**Note on Project Evaluations**

Applicants that propose to use funds awarded through this solicitation to conduct project evaluations should be aware that certain project evaluations (such as systematic investigations designed to develop or contribute to generalizable knowledge) may constitute “research” for purposes of applicable DOJ human subjects protection regulations. However, project evaluations that are intended only to generate internal improvements to a program or service, or are conducted only to meet OJP’s performance measure data reporting requirements likely do not constitute “research.” Applicants should provide sufficient information for OJP to determine whether the particular project they propose would either intentionally or unintentionally collect and/or use information in such a way that it meets the DOJ regulatory definition of research.

Research, for the purposes of human subjects protections for OJP-funded programs, is defined as, “a systematic investigation, including research development, testing, and evaluation, designed to develop or contribute to generalizable knowledge” 28 C.F.R. § 46.102(d). For additional information on determining whether a proposed activity would constitute research, see the decision tree to assist applicants on the “Research and the Protection of Human Subjects” section of the OJP Other Requirements for OJP Applications” web page (www.ojp.usdoj.gov/funding/other_requirements.htm). Applicants whose proposals may involve a research or statistical component also should review the “Confidentiality” section on that web page.

**Notice of Post-Award FFATA Reporting Requirement**

Applicants should anticipate that OJP will require all recipients (other than individuals) of awards of $25,000 or more under this solicitation, consistent with the Federal Funding Accountability and Transparency Act of 2006 (FFATA), to report award information on any first-tier subawards totaling $25,000 or more, and, in certain cases, to report information on the names and total compensation of the five most highly compensated executives of the recipient and first-tier subrecipients. Each applicant entity must ensure that it has the necessary processes and systems in place to comply with the reporting requirements should it receive funding. Reports
regarding subawards will be made through the FFATA Subaward Reporting System (FSRS), found at www.fsrs.gov.

Note also that applicants should anticipate that no subaward of an award made under this solicitation may be made to a subrecipient (other than an individual) unless the potential subrecipient acquires and provides a Data Universal Numbering System (DUNS) number.

How To Apply

Applications will be submitted through Grants.gov. Grants.gov is a “one-stop storefront” that provides a unified process for all customers of federal awards to find funding opportunities and apply for funding. Complete instructions on how to register and submit an application can be found at www.Grants.gov. If the applicant experiences technical difficulties at any point during this process, call the Grants.gov Customer Support Hotline at 800–518–4726 or 606–545–5035, 24 hours a day, 7 days a week, except federal holidays. Registering with Grants.gov is a one-time process; however, processing delays may occur, and it can take up to several weeks for first-time registrants to receive confirmation and a user password. OJP highly recommends that applicants start the registration process as early as possible to prevent delays in submitting an application package by the specified application deadline.

All applicants are required to complete the following steps:

1. **Acquire a Data Universal Numbering System (DUNS) number.** In general, the Office of Management and Budget requires that all applicants (other than individuals) for federal funds include a DUNS number in their applications for a new award or renewal of an existing award. A DUNS number is a unique nine-digit sequence recognized as the universal standard for identifying and keeping track of entities receiving federal funds. The identifier is used for tracking purposes and to validate address and point of contact information for federal assistance applicants, recipients, and subrecipients. The DUNS number will be used throughout the grant life cycle. Obtaining a DUNS number is a free, one-time activity. Obtain a DUNS number by calling Dun and Bradstreet at 866–705–5711 or by applying online at www.dnb.com. A DUNS number is usually received within 1-2 business days.

2. **Acquire or renew registration with the Central Contractor Registration (CCR) database.** OJP requires that all applicants (other than individuals) for federal financial assistance maintain current registrations in the Central Contractor Registration (CCR) database. An applicant must be registered in the CCR to successfully register in Grants.gov. The CCR database is the repository for standard information about federal financial assistance applicants, recipients, and subrecipients. Organizations that have previously submitted applications via Grants.gov are already registered with CCR, as it is a requirement for Grants.gov registration. Note, however, that applicants must update or renew their CCR registration annually to maintain an active status. Information about CCR registration procedures can be accessed at www.ccr.gov.

3. **Acquire an Authorized Organization Representative (AOR) and a Grants.gov username and password.** Complete the AOR profile on Grants.gov and create a username and password. The applicant organization’s DUNS Number must be used to complete this step. For more information about the registration process, go to www.grants.gov/applicants/get_registered.jsp.
4. **Acquire confirmation for the AOR from the E-Business Point of Contact (E-Biz POC).** The E-Biz POC at the applicant organization must log into Grants.gov to confirm the applicant organization’s AOR. Note that there can be more than one AOR for the organization.

5. **Search for the funding opportunity on Grants.gov.** Use the following identifying information when searching for the funding opportunity on Grants.gov. The Catalog of Federal Domestic Assistance (CFDA) number for this solicitation is 16.812, titled “Second Chance Act Prisoner Reentry Initiative,” and the funding opportunity number is BJA-2012-3150.

6. **Select the correct Competition ID.** Some OJP solicitations posted to Grants.gov contain multiple purpose areas, denoted by the individual Competition ID. If applying to a solicitation with multiple Competition IDs, select the appropriate Competition ID for the intended purpose area of the application.

7. **Complete the Disclosure of Lobbying Activities.** All applicants must complete this information. An applicant that expends any funds for lobbying activities must provide the detailed information requested on the form, *Disclosure of Lobbying Activities,* (SF-LLL). An applicant that does not expend any funds for lobbying activities should enter “N/A” in the required highlighted fields.

8. **Submit an application consistent with this solicitation by following the directions in Grants.gov.** Within 24–48 hours after submitting the electronic application, the applicant should receive an e-mail validation message from Grants.gov. The validation message will state whether the application has been received and validated, or rejected, with an explanation. **Important:** Applicants are urged to submit applications at least 72 hours prior to the due date of the application to allow time to receive the validation message and to correct any problems that may have caused a rejection notification.

**Note:** Grants.gov will forward the application to OJP’s Grants Management System (GMS). **GMS does not accept executable file types as application attachments.** The disallowed file types include, but are not limited to, the following extensions: “.com,” “.bat,” “.exe,” “.vbs,” “.cfg,” “.dat,” “.db,” “.dbf,” “.dll,” “.ini,” “.log,” “.ora,” “.sys,” and “.zip.”

**Note: Duplicate Applications**
If an applicant submits multiple versions of an application, BJA will review the most recent version submitted.

**Experiencing Unforeseen Grants.gov Technical Issues**

If an applicant experiences unforeseen Grants.gov technical issues beyond the applicant’s control that prevent submission of its application by the deadline, the applicant must e-mail the BJA Justice Information Center (see page 1 for contact information) **within 24 hours after the deadline** and request approval to submit its application. The applicant must include in the e-mail: a description of the technical difficulties, a timeline of submission efforts, the complete grant application, the applicant DUNS number, and Grants.gov Help Desk tracking number(s) received. **Note: Requests are not automatically approved by BJA.** After the program office reviews all of the information submitted, and contacts the Grants.gov Help Desk to validate the technical issues reported, BJA will contact the applicant to either approve or deny the request to
submit a late application. If the technical issues reported cannot be validated, the application will be rejected as untimely.

The following conditions are not valid reasons to permit late submissions: (1) failure to begin the registration process in sufficient time, (2) failure to follow Grants.gov instructions on how to register and apply as posted on its web site, (3) failure to follow all of the instructions in the OJP solicitation, and (4) technical issues experienced with the applicant’s computer or information technology (IT) environment, including firewalls.

 Notifications regarding known technical problems with Grants.gov, if any, are posted at the top of the OJP funding web page, www.ojp.usdoj.gov/funding/solicitations.htm.

What an Application Should Include

Applicants should anticipate that failure to submit an application that contains all of the specified elements may negatively affect the review of the application; and, should a decision be made to make an award, it may result in the inclusion of special conditions that preclude access to or use of award funds pending satisfaction of the conditions.

Moreover, applicants should anticipate that applications that are unresponsive to the scope of the solicitation, or that do not include application elements designated by BJA to be critical, will neither proceed to peer review nor receive further consideration. Under this solicitation, BJA has designated the following application elements as critical:

- Program Narrative
- Budget Detail Worksheet and Budget Narrative
  The Budget Detail Worksheet and Budget Narrative may be combined into one document. However, if only one document is submitted, it must contain both narrative and detail information.
- Description of both pre- and post-release service delivery for every adult program participant and services for their families in the Abstract and the Program Narrative
- Statement of Assurance Form: Service Provider Licensing/Accreditation/Certification Documentation and Coordination Requirement
  For additional information on the Statement of Assurance Form refer to the solicitation cover page and Appendix 2 on page 31.

OJP strongly recommends use of appropriately descriptive file names (e.g., “Abstract,” “Program Narrative,” “Budget Detail Worksheet and Budget Narrative,” “Timelines,” “Memoranda of Understanding,” “Resumes”) for all attachments. OJP recommends that resumes be included in a single file. In addition, applicants must clearly identify and label each attachment as stated below.

1. Information to Complete the Application for Federal Assistance (SF-424)
   The SF-424 is a standard form required for use as a cover sheet for submission of pre-applications, applications, and related information. Grants.gov and GMS take information from the applicant’s profile to populate the fields on this form. When selecting the "type of applicant," if the applicant is a for-profit entity, select “For-Profit Organization” or “Small
Business” (as applicable). Make sure that all the information is correct. Check your spelling and pay careful attention to the legal name, award amount, address and the points of contact.

Select appropriate Point of Contact (POC) and the Authorized Representative. The two contacts should not be the same. The authorized representative must have the authority to enter the state, county, municipality, or other eligible unit of local government into a legal contract with the federal government. This person is typically a county commissioner, mayor, city manager, or other similarly designated official. The POC will serve as the primary point of contact and will be responsible for grant management duties such as a submission of reports. Make sure that the name, contact information, title, and solicitation is correct.

Refer to www07.grants.gov/assets/SF424Instructions.pdf for more instructions on how to complete the SF-424.

2. Abstract
   The abstract should provide an overall summary of the project and include the project’s purposes, goals, and deliverables. The abstract may be single or double-spaced, but must use a standard 12-point font (Times New Roman is preferred) with no less than 1-inch margins, and not exceed 2 pages. OJP strongly recommends a submission of abstract in a Word document format. The abstract should include the following clearly-labeled information:

   • Name of the applicant (agency/correctional facility), title of project, and amount of funding requested: Brief description of the target population characteristics (i.e. size and make-up of the target population, etc.), the geographic location for the target population, the projected number of offenders to be served, and the jurisdiction’s population.

   • The name of the agency/correctional facility and whether it entity is a state, local, or tribal entity.

   • Brief description of both the pre- and post-release family-based substance abuse treatment services to be provided for every adult program participant and services for their families.

   • Brief description on the type of objective assessment instrument(s) used to identify and determine the offender’s criminogenic risks, needs, and intervention treatment.

   • Information on the collaborative partnerships with community-based substance abuse and family support services providers to ensure coordinated reentry activities.

   • Briefly explain which of the Priority Considerations the application has addressed as described on pages 9-10.

   • Permission to Share Abstract and Contact Information with Private Funders: It is unlikely that BJA will be able to fund all competitive applications, but may have the opportunity to share unfunded competitive application information with private foundations. Applicants should indicate whether they give BJA permission to share their Abstract and Contact Information for both the Authorized Representative and Point of Contact with potentially interested private foundations. Granting this permission will not affect BJA’s funding recommendations, and if the application is not funded, it will not guarantee that information will be shared, nor does it guarantee funding from any other source.
3. Program Narrative
The program narrative must respond to the solicitation and the Selection Criteria (1-5) in the order given. The program narrative should be double-spaced, using a standard 12-point font (Times New Roman is preferred) with no less than 1-inch margins, and should not exceed 15 pages. Number pages “1 of 15,” “2 of 15,” etc.

If the program narrative fails to comply with these length-related restrictions, noncompliance may be considered in peer review and in final award decisions.

The following sections must be included as part of the program narrative:
   a. Statement of the Problem
   b. Program Design and Implementation
   c. Capabilities and Competencies
   d. Impact/Outcomes, Evaluations, Sustainment, and Plan for Collecting the Data Required for this Solicitation’s Performance Measures

Submission of performance measures data is not required for the application. Performance measures are included as an alert that successful applicants will be required to submit specific data to BJA as part of their reporting requirements. Applicants should indicate an understanding of these requirements and discuss how the applicant will gather the required data, should the applicant receive funding.

Further information is available under the Selection Criteria section, page 22.

4. Budget Detail Worksheet and Budget Narrative
   a. Budget Detail Worksheet
      The applicant’s budget materials should reflect the entire 24-month period. A sample Budget Detail Worksheet can be found at www.ojp.gov/funding/forms/budget_detail.pdf. If the budget is submitted in a different format, the budget categories listed in the sample budget worksheet should be included (Personnel, Fringe Benefits, Travel, Equipment, Supplies, Consultants/Contracts, and an Other category). For questions pertaining to budget and examples of allowable and unallowable costs, see the OJP Financial Guide at www.ojp.usdoj.gov/financialguide/index.htm.

      Applicants must budget funding to travel to DOJ-sponsored grant meetings. Applicants should estimate the costs of travel and accommodations for three staff to attend two meetings, for three days, in Washington D.C. Applicants should adhere to state travel policies and/or refer to the federal per diem guidelines (www.gsa.gov/portal/category/21287).

   b. Budget Narrative
      The Budget Narrative should thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet (see above). Proposed budgets are expected to be complete; reasonable and allowable; cost effective; and necessary for project activities. The narrative should be mathematically sound and correspond with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how all costs were estimated and calculated and how they are relevant to the completion of the proposed project. The narrative may include tables for clarification purposes but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should be broken down by year.
5. **Indirect Cost Rate Agreement (if applicable)**

Indirect costs are allowed only if the applicant has a federally approved indirect cost rate. (This requirement does not apply to units of local government.) A copy of the rate approval should be attached. If the applicant does not have an approved rate, one can be requested by contacting the applicant’s cognizant federal agency, which will review all documentation and approve a rate for the applicant organization or, if the applicant’s accounting system permits, costs may be allocated in the direct cost categories. If DOJ is the cognizant federal agency, obtain information needed to submit an indirect cost rate proposal at [www.ojp.usdoj.gov/funding/pdfs/indirect_costs.pdf](http://www.ojp.usdoj.gov/funding/pdfs/indirect_costs.pdf).

6. **Tribal Authorizing Resolution (if applicable)**

If an application is being submitted by either (1) a tribe or tribal organization or (2) a third party proposing to provide direct services or assistance to residents on tribal lands, then a current authorizing resolution of the governing body of the tribal entity or other enactment of the tribal council or comparable governing body authorizing the inclusion of the tribe or tribal organization and its membership should be included with the application. In those instances when an organization or consortium of tribes proposes to apply for a grant on behalf of a tribe or multiple specific tribes, then the application should include a resolution (or comparable legal documentation, as may be applicable) from all tribes that will be included as a part of the services/assistance provided under the grant. A consortium of tribes for which existing consortium bylaws allow action without support from all tribes in the consortium (i.e., without authorizing resolution or other enactment of each tribal governing body) may submit a copy of its consortium bylaws with the application in lieu of tribal resolutions (or comparable legal documentation).

   a. **Project Timeline** with each project goal, related objective, activity, expected completion date, responsible person, or organization.

   b. **Position Descriptions** for key positions.

   c. **Letters of Support/Memoranda of Understanding** from all key partners, detailing the commitment to work with the applicant to promote the mission of the project.

   d. **Statement of Assurance Form: Mandatory Certification Requirements and Coordination Requirement** (see also Appendix 2): Applicants must certify that any treatment program proposed in the application is clinically appropriate, will provide comprehensive treatment, and has been developed in coordination with the SAA for Substance Abuse Services.

   Applicants should also provide official documentation that all collaborating service provider organizations are in compliance with all requirements for licensing, accreditation, and certification, including state, local (city and county), and tribal requirements, as appropriate.

8. **Other Standard Forms**

Additional forms that may be required in connection with an award are available on OJP’s funding page at [www.ojp.usdoj.gov/funding/forms.htm](http://www.ojp.usdoj.gov/funding/forms.htm). For successful applicants, receipt of funds may be contingent upon submission of all necessary forms. Note in particular the following forms:
a. **Standard Assurances**
Applicants must read, certify, and submit this form in GMS prior to the receipt of any award funds.

b. **Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements**
Applicants must read, certify and submit in GMS prior to the receipt of any award funds.

c. **Accounting System and Financial Capability Questionnaire** (required for any applicant other than an individual that is a non-governmental entity and that has not received any award from OJP within the past 3 years; this form must be downloaded, completed, and submitted).

**Selection Criteria**

The following five selection criteria will be used to evaluate each application, with the different weight given to each based on the percentage value listed after each individual criteria. For example, the first criteria, “Statement of the Problem,” is worth 15 percent of the entire score in the application review process.

1. **Statement of the Problem (15 percent out of 100)**
   - Describe the problems with meeting the family and substance abuse treatment needs of incarcerated adult offenders who have minor children and who are returning to the community.
   - Provide information on the target population (i.e. size and make-up of the target population, etc.), the number of offenders who are parents of minors, the treatment needs of these offenders, any statistics or other information available about the number of minor children of the target population, and needs of the family within the community. Include any recidivism and substance abuse data that is available for the target population.
   - Provide justification and support documentation for selecting the target population.
   - Provide a baseline recidivism rate for the proposed target population including documentation to support the development of the rate. If the applicant does not have a baseline recidivism rate for the proposed target population, they should provide a recidivism rate for a similar population.
   - Summarize the basic components of the current process for identifying offender risk as well as offender and family needs, availability of drug and other treatment services, reentry planning for these offenders, case management, and linkages to community-based treatment providers, aftercare, and continuing case management upon reentry.
   - Explain the inability to fund the program adequately without federal assistance.

2. **Program Design and Implementation (35 percent out of 100)**
   - Describe the proposed program and the project’s purpose, goals, and objectives.
• Address: 1) the Approved Use of Award Funds, Fundamental Principles of Evidence-Based Correctional Practice, and Program Design Elements (pages 7-9, Appendix 1); and 2) Priority Considerations (pages 9-10).

• Provide an analysis of the target population, including the projected number of individuals to be served and operational guidelines for identifying eligible program participants which should include a plan to screen potential participants, conduct risk and strengths-based needs assessments, and the process for how individuals will be referred to the program.

• Provide a description of both the pre- and post-release family-based substance abuse treatment services to be provided for every program participant.

• Describe the process for how individuals will be linked to treatment and recovery support services. Identify the evidence-based treatment and support practices being used or proposed and identify and discuss the evidence that shows that the practice(s) is/are effective. Describe any modifications/adaptations you will need to make to this practice to meet the goals of your project and why the changes will improve the outcomes.2

• Describe the process for how participant family members will be identified, engaged, and linked to treatment and support services.

• Describe how services will be excluded from a parental family member for whom there is reasonable evidence to believe they have engaged in domestic violence or child abuse.

• Describe how the following legal requirements will be adhered to within the context of the proposed project:
  o The program shall integrate techniques to assess the strengths and needs of immediate and extended family of the incarcerated parent to support a treatment plan of the incarcerated parent;
  o The program shall ensure that each participant in that program has access to consistent and uninterrupted care if transferred to a different correctional facility within the state or other relevant entity; and
  o The program shall be located in an area separate from the general population of the prison.

3. Capabilities, Competencies, and Collaboration (25 percent out of 100)

• Describe the management structure and staffing of the project, identifying the agency responsible for the project and the grant coordinator.

• Identify the organization(s) proposed to provide substance abuse and other treatment services both within the correction facility and upon offender reentry to the community.

• Demonstrate the capability of the implementing agency and collaborative partners to implement the project, including gathering and analyzing information, developing a plan, and evaluating the program.

2 BJA recognizes that some evidence-based practices may not exist for all populations and/or service settings. Applicants proposing to serve a population with an intervention that has not been formally evaluated with that population are required to provide other forms of evidence that the practice(s) they propose is appropriate for the target population such as unpublished studies, preliminary evaluation results, clinical guidelines, findings from focus groups with community members, etc.
• Demonstrate partnerships with community-based substance abuse and family support services providers to ensure coordinated reentry efforts and ongoing treatment and/or aftercare programming for offenders and treatment and other support services are initiated and continue for minor children and family members.

• Describe how this program will augment any existing residential treatment program and if the facility at which services will be provided receives BJA Residential Substance Abuse Treatment (RSAT) for State Prisoners Program funds through the state. See note on page 5.

4. Impact/Outcomes, Evaluation, and Sustainment, and Plan for Collecting the Data Required for this Solicitation’s Performance Measures (15 percent out of 100)

• Describe the current ability to collect and analyze client-level performance and outcome data. In addition, this description should also include the ability to share data with other agencies, such as the substance abuse agency or other relevant service agencies.

• Describe the process for assessing the initiative’s effectiveness through the collection and reporting of the required performance metrics data (see “Performance Measures,” page 13).

• Identify goals and objectives for program development, implementation, and outcomes.

• Describe how performance will be documented, monitored, and evaluated, and identify the impact of the strategy once implemented.

• Outline what data and information will be collected and describe how evaluation and collaborative partnerships will be leveraged to build long-term support and resources for the program.

• Discuss how this effort will be integrated into the state or tribal justice system plans or commitments, how the program will be financially sustained after federal funding ends, and the expected long-term results for the program.

5. Budget (10 percent of 100)

• Provide a proposed budget that is complete; reasonable and allowable; cost-effective; and necessary for project activities.

• Applicants must budget funding to travel to Department of Justice-sponsored grant meetings. Applicants should estimate the costs of travel and accommodations for three staff to attend two meetings in Washington D.C. Applicants should adhere to state travel policies and/or refer to the federal per diem guidelines (www.gsa.gov/portal/category/21287).

Review Process

OJP is committed to ensuring a fair and open process for awarding grants. BJA reviews the application to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with the solicitation.

Peer reviewers will review the applications submitted under this solicitation that meet basic minimum requirements. BJA may use either internal peer reviewers, external peer reviewers, or
a combination to review the applications under this solicitation. An external peer reviewer is an expert in the field of the subject matter of a given solicitation who is NOT a current DOJ employee. An internal reviewer is a current DOJ employee who is well-versed or has expertise in the subject matter of this solicitation. Applications that meet basic minimum requirements will be evaluated, scored, and rated by a peer review panel. Peer reviewers’ ratings and any resulting recommendations are advisory only. In addition to peer review ratings, considerations for award recommendations and decisions may include, but are not limited to, underserved populations, geographic diversity, strategic priorities, past performance, and available funding.

The Office of the Chief Financial Officer (OCFO), in consultation with BJA, conducts a financial review of applications for potential discretionary awards to evaluate the fiscal integrity and financial capability of applicants; examines proposed costs to determine if the Budget Detail Worksheet and Budget Narrative accurately explain project costs; and determines whether costs are reasonable, necessary, and allowable under applicable federal cost principles and agency regulations.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General (AAG), who also may give consideration to factors including, but not limited to, underserved populations, geographic diversity, strategic priorities, past performance, and available funding when making awards.

Additional Requirements

Applicants selected for awards must agree to comply with additional legal requirements upon acceptance of an award. OJP strongly encourages applicants to review the information pertaining to these additional requirements prior to submitting an application. Additional information for each requirement can be found at www.ojp.usdoj.gov/funding/other_requirements.htm.

- Civil Rights Compliance
- Faith-Based and Other Community Organizations
- Confidentiality
- Research and the Protection of Human Subjects
- Anti-Lobbying Act
- Financial and Government Audit Requirements
- National Environmental Policy Act (NEPA)
- DOJ Information Technology Standards (if applicable)
- Single Point of Contact Review
- Non-Supplanting of State or Local Funds
- Criminal Penalty for False Statements
• Compliance with Office of Justice Programs Financial Guide

• Suspension or Termination of Funding

• Nonprofit Organizations

• For-profit Organizations

• Government Performance and Results Act (GPRA)

• Rights in Intellectual Property

• Federal Funding Accountability and Transparency Act (FFATA) of 2006

• Awards in Excess of $5,000,000 – Federal Taxes Certification Requirement

• Active CCR Registration

Provide Feedback to OJP on This Solicitation

To assist OJP in improving its application and award processes, we encourage applicants to provide feedback on this solicitation, application submission process, and/or the application review/peer review process. Feedback can be provided to OJPSolicitationFeedback@usdoj.gov.
Application Checklist
FY 2012 Second Chance Act Family-Based Adult Offender Substance Abuse Treatment Program

This checklist has been created to assist with developing an application. This application checklist reflects the specific information requested in the solicitation, including, but not limited to, information and documents required for the Basic Minimum Requirements (BMR).

Eligibility Requirements:
_____ Applicant agency meets eligibility requirements (see title page)
_____ The proposed budget is within the allowable limits (up to $300,000, for 24 months)
_____ Federally-recognized Indian tribe (if applicable)

What an Application Should Include:
_____ SF 424 Form (see page 18)
_____ Abstract—including information on both pre- and post-release services for every program participant* (see page 19)
_____ Program Narrative*—Including information on both pre- and post-release services for every program participant* (see page 20)
_____ Budget Detail Worksheet and Budget Narrative* (see page 20)
_____ Disclosure of Lobbying Activities (SF-LLL) (see page 17)
_____ Additional Attachments (see page 21)
____ Project Timeline
____ Position Descriptions
_____ Letters of Support/Memoranda of Understanding
_____ Statement of Assurance Form: Mandatory Certification Requirements and Coordination Requirement *
_____ Indirect Cost Rate Agreement (if applicable) (see page 21)
_____ Tribal Authorizing Resolution (if applicable) (see page 21)
_____ Other Standard Forms as applicable (see page 21), including:
____ Accounting System and Financial Capability Questionnaire (if applicable)

* These elements are the basic minimum requirements for applications. Applications that do not include these elements shall neither proceed to peer review nor receive further consideration by BJA.
Appendix 1

Fundamental Principles of Evidence-Based Correctional Practice

The primary objective of the Second Chance Act is to reduce recidivism. Based upon reliable research findings, there are six fundamental principles of evidence-based correctional practice that are widely accepted as strategies to reduce future criminal behavior.

1) **Objectively Assess Criminogenic Risks and Needs**: Maintain a comprehensive system to establish risk screening and needs assessment. The actuarial assessment of offenders—in a reliable and valid manner—is essential for the effective supervision and treatment of people returning from prisons, jails, and juvenile facilities (Andrews and Bonta, 1998). The levels of supervision and services for individual offenders must be matched to individual risk and need.

2) **Enhance Intrinsic Motivation**: Staff must be able to relate to offenders in interpersonally sensitive and constructive ways in order to enhance intrinsic motivation in offenders. Research findings suggest that motivational interviewing or other cognitive-behavioral communication techniques can effectively enhance the offender's desire to initiate and maintain behavior changes (Miller and Rollnick, 2002; Miller and Mount, 2001).

3) **Target Higher-Risk Offenders**: Prioritize primary supervision and treatment resources for offenders who are at higher risk to re-offend. Consistent findings from a wide variety of recidivism studies show that supervision and treatment resources focused on lower-risk offenders produce little if any positive effect on the rates of subsequent criminal behavior (McGuire, 2001, 2002) and can at times increase the risk level of low-risk offenders. Maximum benefit is gained only when intervention resources are directed to moderate- and high-risk offenders.

4) **Address Offenders’ Greatest Criminogenic Needs**: The greatest emphasis must be placed on addressing those needs which are most closely associated with criminal behavior. When the factors that lead the offender to commit crimes are effectively addressed, that person is less likely to commit crime (Elliot, 2001).

5) **Use Cognitive-Behavioral Interventions**: These strategies are focused on changing the offender’s thinking patterns in order to change future behavior. The most effective interventions provide opportunities for participants to practice new behavior patterns and skills with feedback from program staff.

6) **Determine Dosage and Intensity of Services**: Higher-risk offenders require significantly more structure and services than lower-risk offenders. High-risk offenders should receive a minimum of 300 hours of cognitive-based interventions, moderate-risk offenders should receive a minimum of 200 hours, and low-risk offenders should receive a minimum of 100 hours of cognitive-based interventions. Additionally, during the initial 3–9 months post-release, 40–70 percent of high-risk offenders’ free time needs to be occupied with delineated routine and appropriate services (Bourgon and Armstrong, 2006; Latessa, 2004; Gendreau and Goggin, 1995).
Important Things to Understand From the Research:

- Correctional staff needs to work with offenders to ensure they have the tools needed for success in the community.

- Correctional and community staff must understand the importance of working with moderate- and high-risk offenders rather than low-risk offenders in order to demonstrate that their program can decrease recidivism.

- The most effective organizational-change strategies involve supervision and coaching of staff to reinforce the expected way of doing business—training alone is not sufficient.

Questions to Ask As You Launch Your Program:

- Who are you targeting for your program?

- Do the risk and needs of your target population match the services and supports you’ve funded through your Second Chance grant?

- When and how are the risks and needs of your target population assessed?

- Following the risk/need assessment, are the services, supervision, and interventions recommendations developed with the offender?

- Are these interventions based upon a systematic assessment of individual levels of risk and criminogenic needs?

- How are services coordinated for your target population as they move from the institutional phase, to the reentry phase, to the community phase?

- How is programming that is begun in prison linked to the programming that the offender receives in the community?

- How are supervision and treatment resources prioritized for moderate and high risk offenders?

- Are your interventions cognitive-behavioral based?

- What data is collected on individuals?

- Do you collect case-level data on which of your program participants have (1) housing, (2) employment, (3) substance abuse treatment (if necessary), (4) mental health treatment (if necessary), and (5) social support?

Appendix 2
Statement of Assurance Form:
Mandatory Certification Requirements and Coordination Requirement
(Submit with the Application as an Attachment)

As the Authorized Representative of [insert name of applicant organization]
__________________________________________________________, I assure BJA the following:

**Mandatory Certification Requirement: Service Provider Licensing/ Accreditation/ Certification Documentation:** In addition, as the Authorized Representative I also assure BJA that all collaborating service provider organizations listed in this application meet applicable licensing, accreditation, and certification requirements.

As the authorized representative, I also understand that the following information is required to receive funding, and these materials have been included within the application materials:

- A letter of commitment that specifies the nature of the participation and what service(s) will be provided from every service provider organization listed in the application that has agreed to participate in the project.

- Official documentation that all service provider organizations collaborating in the project have been providing relevant services for a minimum of 2 years prior to the date of the application in the area(s) in which services are to be provided. Official documents must definitively establish that the organization has provided relevant services for the last 2 years.

- Official documentation that all collaborating service provider organizations are in compliance with all local (city, county) and state/tribal requirements for licensing, accreditation, and certification or official documentation from the appropriate agency of the applicable state/tribal, county, or other governmental unit that licensing, accreditation, and certification requirements do not exist.

  **Note:** Official documentation is a copy of each service provider organization’s license, accreditation, and certification.

- Documentation of accreditation will not be accepted in lieu of an organization’s license. A statement by, or letter from, the applicant organization or from a provider organization attesting to compliance with licensing, accreditation and certification or that no licensing, accreditation, certification requirements exist, does not constitute adequate documentation.

**Mandatory Coordination Requirement:** That if my organization is not the Single State Agency (SSA) for Substance Abuse Services, I assure and have demonstrated that the proposal has been developed in coordination with SAA support, except in the case of federally-recognized tribal government applicants.

## Appendix 3
### Pay for Success Criteria

<table>
<thead>
<tr>
<th>Criteria</th>
<th>Details</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Target Population</strong></td>
<td>The project must describe the population to be served, the goals to be obtained, and provide adequate protection for vulnerable populations. The project should describe any safeguards and incentives against “creaming.” The project should also describe how it meets a compelling need.</td>
</tr>
<tr>
<td><strong>Evidence</strong></td>
<td>The project must describe the types of services and other interventions that will be provided. The project should identify any body of evidence that supports the efficacy of the approach.</td>
</tr>
<tr>
<td><strong>Investment</strong></td>
<td>The project should clearly identify the source of working capital and provide evidence of its availability. The quantity and availability of operating funds should be adequate to sustain the life of the project. The project should clearly describe the use of any newly requested or existing federal funds.</td>
</tr>
<tr>
<td><strong>Agreement</strong></td>
<td>The project must identify all parties to the agreement including prime and sub-recipients. Any intermediaries or other management organizations must be clearly identified. The roles and responsibilities of all parties should be described.</td>
</tr>
<tr>
<td><strong>Flexibility</strong></td>
<td>The project must not overly encumber the management and administration of services and other interventions. The project includes the flexibility to adjust the service delivery strategy to achieve the negotiated outcomes. If necessary the project should identify and justify any requested flexibilities around regulations and/or administrative requirements. The project should identify the source (federal/state/local) for each requested variation.</td>
</tr>
<tr>
<td><strong>Outcomes</strong></td>
<td>Outcomes must be defined in terms of the desired “end state”. The project should identify outcomes that can be measured and given a monetary value. The project should describe the derivation of the monetary value for each desired outcome including identification and assignment of any expected future savings to governmental entity(s).</td>
</tr>
<tr>
<td>Outcome Measures</td>
<td>The project must describe how the achievement of outcomes will be measured. The project should provide evidence that the [grantee] and the investors have agreed upon the evaluation/measurement methodology including metrics, timing, independence, and credible comparison groups. This methodology should provide assurances that PFS is paying for impacts and not just outcomes that would have been achieved with or without the intervention. The project should describe the reporting of any interim measures and progress toward achievement of outcomes, including how interim evaluation data could be used to improve program efficacy.</td>
</tr>
<tr>
<td>---</td>
<td>---</td>
</tr>
<tr>
<td>Payments</td>
<td>The obligation and period of availability of government funds should align with payback periods. The project should describe provisions for government payments based upon achievement of proposed outcomes. Payments should only be made based upon substantiated achievement of interim or final outcomes.</td>
</tr>
<tr>
<td>Savings/ROI</td>
<td>Savings or return on investment (ROI) generated from the achievement of outcomes should meet or exceed the cost of services and other interventions including management, administration and evaluation. Government and outside entities should identify whether these savings or ROI accrue proportionate to investment for each participating governmental entity.</td>
</tr>
