Note: The allocations are based on a formula that provides each State and Territory with a base amount, plus an allocation in proportion to the ratio that its prison population bears to the total prison population of all States and Territories. The prison population includes all inmates under the jurisdiction of the State

or Territory for whom the State has legal authority and responsibility. The counts include inmates who may be housed in other States, county or city jails, or other adult correctional facilities. As of December 31, 2001, inmates sentenced to more than 1 year in the District of Columbia were held under the responsibility of the Federal Bureau of Prisons.

¹State prisoner counts are as of December 31, 2013 as reported to the Bureau of Justice Statistics (BJS) in the National Prisoner Statistics Program (NPS-1B).

²For States with an integrated prison and jail system, prisoner counts include only those inmates with sentences of more than 1 year.

³Nevada did not submit data to NPS-1B for 2013. BJS produced estimated counts based on published data from the departments of corrections websites and the ratio of these data to past NPS-1B submissions.

⁴North Dakota, South Dakota and the Northern Mariana Islands did not apply for RSAT funds in 2015.

⁵Prisoner counts for the territories are based on the most recent data available; the data year of most recent available data varies. Data for American Samoa are as of December 31, 2011; all other territories' data are as of December 31, 2013. Counts only include those inmates with sentences of more than 1 year.
