# The Edward Byrne Memorial Justice Assistance Grant (JAG) Program

## Spending Report (April–December 2012)

The Edward Byrne Memorial Justice Assistance Grant (JAG) Program, administered by BJA, is the leading source of Federal justice funding to State and local jurisdictions. The JAG Program provides States and local governments with critical funding necessary to support a range of program areas.

JAG grantees began to collect data on the new JAG performance measures in April 2012 and have submitted three reporting periods of data (April–June 2012, July–September 2012, and October–December 2012).

Under the new measures, grantees report their data according to 7 purpose areas. Their reporting gives detailed data on the amount of funding spent on each purpose area as well as on related activities.

The following is a list of the 7 purpose areas and the types of data collected with the new measures:

- 1. Law Enforcement:** Activities include creating or fostering law enforcement programs, hiring or maintaining police officers, investing in equipment or technology, conducting or attending law enforcement–related training, funding multijurisdictional taskforces, and reporting data on seizures.
- 2. Courts (Prosecution, Defense, and Indigent Defense):** Activities include funding for defense and indigent defense as well as the hiring of personnel (i.e., court clerks, investigators, prosecutors, and public defenders), paying overtime, investing in equipment or technology, and training personnel.
- 3. Crime Prevention and Education:** Activities include crime prevention programs or campaigns, and/or publication and dissemination of educational materials.
- 4. Corrections and Community Corrections:** Activities include corrections and programs such as reentry that fund services ranging from educational and vocational training to employment and housing placement.
- 5. Drug Treatment and Enforcement:** Drug treatment activities include treatment (inpatient or outpatient) as well as clinical assessment, detoxification, counseling, and aftercare. Drug enforcement activities include task forces and seizures.
- 6. Planning, Evaluation, and Technology Improvement:** Activities include planning and conducting evaluations and making technology improvements.
- 7. Crime Victim and Witness Protection:** Activities include providing legal, medical, counseling, advocacy, or educational services to crime victims and/or witnesses. Training is an important component of these services, including training individuals and distributing training materials appropriate for crime victims and/or witnesses.

This report describes the amount of funding the grantees indicated as allocated for each of the 7 purpose areas and is divided by state and local jurisdictions. The data are based on all current active grants, which represent awards from FY09 through FY12. Grantees were filtered by operational status, because a number of the grantees are making equipment purchases and only report for one quarter. This allows for information to be collected for all grantees that were awarded funds at any point across the three reporting periods.

\*These numbers are estimated allocated amounts based on grantee self-report data in the PMT. The PMT is not a financial reporting tool, and the information is not verified for financial reporting.

## Funds Awarded by Purpose Area

In the figures below, funding awards by purpose area and state and local jurisdiction are reported quarterly. Information was reported in this way because the number of organizations reporting change by quarter, and the quarterly breakdown ensures the most accurate information.

### Local JAG Funding by Purpose Area for Each Reporting Period

April–June 2012 (Local)

July–September 2012 (Local)

October–December 2012 (Local)

## State JAG Funding by Purpose Area for Each Reporting Period

April–June 2012 (State)

July–September 2012 (State)

October–December 2012 (State)

## Funds Awarded by Purpose Area for Operational JAG Grantees

In the tables below, the awarded funding and the number of grantees for that quarter are shown by purpose area. The number of grantees and the awarded amount vary by quarter as grantees are added and removed from operational status for reporting purposes. This explains the variation in the number of grantees and funding amount across quarters. The grantee number listed includes both primary and subrecipient awards.
