The U.S. Department of Justice (DOJ), Office of Justice Programs (OJP), Bureau of Justice Assistance (BJA) is seeking applications under the Technology Innovation for Public Safety (TIPS) Program, for the implementation of innovative and replicable projects that combat precipitous increases in crime, with an emphasis on addressing violent crime, human trafficking, and the opioid crisis. This program further the Department’s mission by supporting state, local, tribal, and territorial jurisdictions in reducing crime and improving the functioning of the criminal justice system through more effective information sharing, multi-agency collaboration, and implementation of data-driven, evidence-based strategies. TIPS is part of the Project Safe Neighborhoods Suite of programs, which is focused on reducing violent crime.

Technology Innovation for Public Safety (TIPS)
Addressing Precipitous Increases in Crime
FY 2018 Competitive Grant Announcement
Applications Due: May 1, 2018

Eligibility

Eligible applicants are public agencies of state governments, units of local government, and federally recognized Indian tribal governments that perform law enforcement functions (as determined by the Secretary of the Interior) or act as their fiscal agents. Under this solicitation, BJA is looking for innovative technology implementation and applicant projects that specifically address precipitous increases in crime(s) on a local, county, or regional basis, with an emphasis on addressing violent crime, human trafficking and the opioid crisis.

BJA welcomes applications under which two or more entities would carry out the federal award; however, only one entity may be the applicant. Any others must be proposed subrecipients (“subgrantees”).¹ The applicant must be the entity that would have primary responsibility for carrying out the award, including administering the funding and managing the entire project. A subrecipient can represent nonprofit or for-profit organizations (including tribal nonprofit or for-profit organizations), faith-based and community organizations, or institutions of higher education (including tribal institutions of higher education) that support initiatives to improve the functioning of the criminal justice system as well as the same type of agency as the primary applicant.

All recipients and subrecipients (including any for-profit organization) must forgo any profit or management fee.

To be eligible for funding under this solicitation, applicants must propose solutions that will be deployed to jurisdictions that are currently experiencing precipitous or extraordinary increases in crime, in accordance with 34 USC § 10157(b)(1), to assist them in addressing these
increases. To assist with the application process and verify the applicant’s eligibility, a two-page (maximum) document is required to be submitted with the application. It must specifically identify the increased crime(s) to be addressed and show statistical data proving the increases over a 2-year period.

BJA may elect to fund applications submitted under this fiscal year (FY) 2018 solicitation in future fiscal years, dependent on, among other considerations, the merit of the applications and on the availability of appropriations.

**Deadline**

Applicants must register with Grants.gov at [https://www.grants.gov/web/grants/register.html](https://www.grants.gov/web/grants/register.html) prior to submitting an application. All applications are due by 11:59 p.m. eastern time on May 1, 2018.

To be considered timely, an application must be submitted by the application deadline using Grants.gov, and the applicant must have received a validation message from Grants.gov that indicates successful and timely submission. OJP urges applicants to submit applications at least 72 hours prior to the application due date, to allow time for the applicant to receive validation messages or rejection notifications from Grants.gov, and to correct in a timely fashion any problems that may have caused a rejection notification.

OJP encourages all applicants to read this Important Notice: Applying for Grants in Grants.gov.

For additional information, see How to Apply in Section D. Application and Submission Information.

**Contact Information**

For technical assistance with submitting an application, contact the Grants.gov Customer Support Hotline at 800–518–4726, 606–545–5035, at [https://www.grants.gov/web/grants/support.html](https://www.grants.gov/web/grants/support.html), or at support@grants.gov. The Grants.gov Support Hotline operates 24 hours a day, 7 days a week, except on federal holidays.

An applicant that experiences unforeseen Grants.gov technical issues beyond its control that prevent it from submitting its application by the deadline must email the contact identified below within 24 hours after the application deadline to request approval to submit its application after the deadline. Additional information on reporting technical issues appears under “Experiencing Unforeseen Grants.gov Technical Issues” in the How To Apply section.

The email contact for technical issues with Grants.gov or any other requirement of this solicitation, is the National Criminal Justice Reference Service (NCJRS) Response Center: toll-free at 800–851–3420; via TTY at 301–240–6310 (hearing impaired only); email grants@ncjrs.gov; fax to 301–240–5830; or web chat at [https://webcontact.ncjrs.gov/ncjchat/chat.jsp](https://webcontact.ncjrs.gov/ncjchat/chat.jsp). The NCJRS Response Center hours of operation are 10:00 a.m. to 6:00 p.m. eastern time, Monday through Friday, and 10:00 a.m. to 8:00 p.m. eastern time on the solicitation close date.

Grants.gov number assigned to this solicitation: BJA-2018-13568
Release date: March 15, 2018

A. Program Description

Overview
This program supports the Department’s priorities of reducing violent crime and supporting law enforcement officers, including prosecutors. While many jurisdictions are making significant progress implementing justice information sharing solutions to address critical gaps in crime prevention and response activities across organizations and jurisdictions, there remain challenges for the criminal justice system to respond to threats to public safety. This is especially true concerning efforts addressing significant increases in crime(s).

For this solicitation, “justice information sharing technology” refers to any technology (hardware and/or software, hosted residentially or remotely) that plays a role in the collection, storage, sharing, and analysis of criminal justice data. Funding under this program is provided to assist state, local, territorial, and tribal jurisdictions in enhancing their justice information-sharing capacity through the use of innovative technological solutions to more effectively address disproportional and precipitous increases in crime(s).

TIPS is part of the Project Safe Neighborhoods (PSN) Suite of programs, which is focused on reducing violent crime. The PSN Suite comprises PSN, Strategies for Policing Innovation, Innovative Prosecution Solutions, Crime Gun Intelligence Centers, National Public Safety Partnerships, TIPS, Innovations in Community-Based Crime Reduction, and Community-Based Violence Prevention Demonstration, and these initiatives will coordinate proactively with the PSN team in the respective district of the United States Attorney Office (USAO) to enhance collaboration and strengthen the commitment to reducing violent crime. Applicants must demonstrate this coordination with their USAO district PSN team in their submission.

This is not an equipment purchasing solicitation. Applications limited to equipment purchases will be ineligible and eliminated from funding consideration.

Statutory Authority:
This program is funded under the “reserved funds” section (375634 USC § 10157(b)(1)) of the Edward Byrne Memorial Justice Assistance Grant (JAG) Program. The “reserved funds” section provides that up to 5 percent of the funds available to carry out the JAG Program may be granted for one or more of the purposes specified at 34 USC § 10152 upon a determination that such a grant is necessary “to combat, address, or otherwise respond to precipitous or extraordinary increases in crime, or in a type or types of crime.”

Program-Specific Information
In order to be considered for an award under this solicitation, applicants must clearly identify how the funding will directly address a precipitous or extraordinary increase in crime(s) or in a type or types of crime in the applicant’s own jurisdiction, by impacting the population(s) affected in the application. Applicants must:
Identify a crime or type(s) of crime that have precipitously increased within the jurisdiction, which will be addressed by the proposed solution. Identify the period of time during which the relevant category of crime increased. Provide evidence substantiating the claimed increase. Examples of such evidence include statistics, research findings, or other objective evidence, as appropriate.

Prior to award consideration, BJA will verify that the applicants meet these requirements, based on the information provided in their applications and other available crime statistics.

The TIPS Program is designed to enable strategic information sharing across crime-fighting agencies with identified partnerships to address specific local or regional crime problems. Often these efforts will require a multidisciplinary response involving law enforcement, analysts and/or investigators, information technology staff, public safety and/or first responders, adjudications and/or courts, corrections, human services organizations, and other stakeholders. Applicants are encouraged to propose comprehensive plans that include coordination among multiple stakeholder agencies, including shared investment and use of technology services or regional planning, as appropriate.

The efficient and effective sharing of information between and among justice agencies and their partners is critical to preserving public safety and ensuring the fair and expeditious administration of justice. In the current fiscal environment of reduced resources at all levels of government, the ability to share information and collaborate across organizations is a critical factor for enabling communities to address their most pressing criminal justice problems in cost-effective ways. The funding available through this program represents BJA’s commitment to support the implementation of justice information-sharing solutions at the state, local, territorial, and tribal levels in ways that result in significant cost and time savings, and enhance criminal justice policies and practices that promote public safety and reduce crime.

Successful applicants will demonstrate a clear need in the field (the problem statement supported, as appropriate, through data and information that have been collected and documented) and a readiness to address the problem. In addition, applicants must propose implementation of innovative solutions promoting “cross-boundary” justice information sharing (e.g., interstate information sharing; intrastate information sharing between localities and states, localities and counties, etc.; or information sharing across agencies and functional disciplines within the same jurisdiction).

Applicants are strongly encouraged to propose the development and implementation of technical solutions that can be replicated or reused by other agencies and organizations nationwide that are facing similar criminal justice challenges. This factor should be addressed in the application abstract and narrative.

Finally, successful applicants will be required to measure the impact of the solutions they implement on their criminal justice business practices. Applicants must be prepared to share data regarding project outputs and outcomes to assist future initiatives designed to replicate best practices and innovative technology solutions nationwide.

**Leveraging Global Justice Information Sharing Initiative (DOJ’s Global) Tools**

It is BJA’s expectation that the justice information-sharing solutions implemented under TIPS will leverage the components of the Global Standards Package (GSP), which includes the Global Reference Architecture, the National Information Exchange Model, Global Federated...
Identity and Privilege Management, and the Global Privacy Technology Framework. For more information about GSP, visit www.it.ojp.gov/gsp.

In addition, successful applicants must be willing to work with a BJA-designated national technical assistance provider to ensure the appropriate Global- or BJA-recommended justice information-sharing standards and tools are effectively applied in the solution used to address the stated business need(s).

Furthermore, it is BJA’s expectation that the justice information-sharing solutions implemented under this program will be based on comprehensive privacy policies, where applicable. Privacy impact assessments and public discourse on the potential public impact of data collection activities is strongly encouraged to foster trust and acceptance by the public. At minimum, applicants must address the privacy considerations of their proposal, and identify whether or not a privacy policy will be used to govern the use of collected or shared data. For more information on privacy guidance available from BJA visit www.bja.gov/publications.aspx and search for “privacy.”

Examples of Technology Innovations:

Applicants are asked to define their unique challenges and the associated impact on local communities, and provide a comprehensive implementation plan for using justice information-sharing technology to reduce or mitigate crime problem(s). The following list reflects some of the more common technology challenges faced by criminal justice practitioners today, with respect to information sharing. BJA encourages applicants to address one or more such topic areas in their applications, and set targeted goals for how to enable or improve these capabilities across organizations and partnerships. Note that the TIPS Program is designed to support innovative applications of technology, not to support the purchase of new equipment, unless the equipment is directly related to the proposed project and the applicant articulates how it will be used as part of the solution to reduce the identified crime(s).

- **Technology Integration** – Connection of existing systems to share, reuse, and collaborate across agencies and systems. This could include data-sharing enhancements to existing records management systems, case management systems, state or regional data-sharing networks, analytical tools, and mobile technology platforms. Agencies may also seek to improve information flow among criminal justice system partners to improve the completeness of records on offenders, warrants, cases, and incidents.

- **Data Linking and Identity Management** – When combining data sources or providing access to multiple data systems, a thoughtful approach is required. Access control rules must be considered and implemented to ensure appropriate access to sensitive information, and protocols for linking records across information silos are needed to ensure that records are complete and free from errors or duplication.

- **Mobile Operation** – To promote data sharing between officers and investigators in the field, enhancing mobile technologies to allow access to data and analytics remotely, particularly case management-based information, is crucial. Leveraging the force multiplier aspects of mobile data terminals, by leveraging the integration of innovative applications involving mobile devices, enables not only data access but data entry as well. Access to better mobile tools means more time in the field and more efficient personnel management. This is an example where equipment alone does not produce innovation—it is the convergence of technology and process that is critical to innovation.
National Repositories – Numerous resources exist at the regional and national levels that can assist with investigations that only require minor integration with or modification to current practices. For example, the National Integrated Ballistic Information Network (NIBIN) and eTrace from the Bureau of Alcohol, Tobacco, Firearms and Explosives (ATF) can provide assistance in matching data obtained from crime scenes to link weapons with suspects. Participation in the Federal Bureau of Investigation’s (FBI) National Data Exchange (NDEx) or similar systems offers a nationwide incident-based database to compile tips, leads, and referrals to advance investigations.

Social Network Analysis – Social network analytics, not to be confused with social media-supported investigations, can provide valuable information for law enforcement investigators. Tools that perform social network analysis are steadily improving in sophistication and capability. They can serve law enforcement agencies by providing venues for greater collaboration within and outside their organizations, and serve as a means of bringing insights and tips or leads from large and chaotic data sets. Social network analytics need not be limited to traditional tools available to the public and may include private forums designed to facilitate joint investigations, offer deconfliction services, or provide access to supplementary data resources such as pawn or salvage repositories to gain insights into linked criminal behavior within a jurisdiction. Projects in this area must have safeguards in place to ensure the protection of individuals’ privacy and civil liberties.

Expanding Analytical Capacity – Establishing or enhancing a crime analysis center (CAC), real-time crime center (RTCC), or fusion center (FC) can prove a valuable investment, particularly on a regional basis where such a center can offer critical insights based on a larger view of the data than is available within a single agency. Such centers are also uniquely situated to procure and use advanced technology tools such as geographic information systems, facial recognition, and software analytics packages. In some cases, they can also offer criminal intelligence functions by employing predictive analytic techniques.

Priority Considerations
Applicants that address the following will be given priority consideration for TIPS funding:

1. Describe the relationship between the stated application objectives and the identified precipitous increase in crime(s).
2. Describe innovations that integrate technologies with enhanced processes and the promotion of data sharing and analytics between systems and partners.
3. Identify the processes to measure the impact of the stated application goals.
4. Identify partnerships working collaboratively to address the crime(s) identified in the application and show how the project will be sustained at the end of the federal funding period.

Objectives and Deliverables
During the 24-month grant program period, selected applicants will receive oversight and guidance from BJA and BJA’s identified technical assistance provider, and will be required to achieve the following objectives and deliverables, including but not limited to:
Objective 1: Identify and promote technology solutions that target preventing, investigating, prosecuting, and responding to precipitous increases in specific crime(s).

- Use innovative technology solutions to develop new resources or leverage existing relationships and resources to combat specific crime issues.
- Promote information sharing and collaboration within and among criminal justice agencies having a role in responding to and investigating specific crime(s).
- Ensure proposed technology solutions are cost-effective to the identified jurisdictions.
- Applicants will document the technology solutions identified and articulate in a summary document how the use of technology may result in cost savings to the agency (e.g., reduced personnel costs, resources, etc.)

Objective 2: Leverage new and existing partnerships to include other criminal justice entities, community organizations, and private or public providers to enhance the applicant’s ability to respond to these specific crimes within their jurisdiction.

- Improve communications and training strategies, with the intent of educating their communities and building awareness and support in the general public about the crime reduction strategies being implemented.
- Build successful partnerships among local, state, federal, and tribal law enforcement agencies, as well as local nonprofit and faith-based organizations, to combat specific crime(s) increases.
- Applicants will collaborate with stakeholders and their communities to build awareness through meetings, training, and resource materials.

Objective 3: Develop policies and practices around the use of the technology solution that promote decision making with the intent to reduce the precipitous increase of the identified specific crime(s).

- Review and develop existing new policies based on the intended technology solutions to include the implementation and continued use of these solutions.
- Applicants will document and implement the policies and practices as part of the jurisdiction’s operation manual and the agency’s rules and regulations.

Objective 4: Implement the identified information-sharing or other technology solution(s) at all levels.

- Research and procure the information-sharing or other technology solution(s)
- Applicants will implement and sustain the proposed technology solution(s).
Program Deliverables
Program deliverables must include, at a minimum, the following:

- Successful implementation of an information-sharing solution at the state, local, regional, tribal, or national level that leverages the GSP and has a measurable positive impact on the crime trends cited as the problem(s) to be addressed.

- Development of a BJA-branded report that documents the successful implementation process, as well as appropriate project outputs, outcomes, and performance measures, to support replication and adoption of the technical solution and related policies and practices to support other jurisdictions experiencing the same or similar challenges.

The objectives and deliverables are directly related to the performance measures set out in Appendix A.

Evidence-Based Programs or Practices
OJP strongly emphasizes the use of data and evidence in policy making and program development in criminal justice, juvenile justice, and crime victim services. OJP is committed to:

- Improving the quantity and quality of evidence OJP generates.
- Integrating evidence into program, practice, and policy decisions within OJP and the field.
- Improving the translation of evidence into practice.

OJP considers programs and practices to be evidence-based when their effectiveness has been demonstrated by causal evidence, generally obtained through one or more outcome evaluations. Causal evidence documents a relationship between an activity or intervention (including technology) and its intended outcome, including measuring the direction and size of a change, and the extent to which a change may be attributed to the activity or intervention. Causal evidence depends on the use of scientific methods to rule out, to the extent possible, alternative explanations for the documented change. The strength of causal evidence, based on the factors described above, will influence the degree to which OJP considers a program or practice to be evidence-based.

The OJP CrimeSolutions.gov website at https://www.crimesolutions.gov is one resource that applicants may use to find information about evidence-based programs in criminal justice, juvenile justice, and crime victim services.

Information Regarding Potential Evaluation of Programs and Activities
The Department of Justice has prioritized the use of evidence-based programming and deems it critical to continue to build and expand the evidence informing criminal and juvenile justice programs to reach the highest level of rigor possible. Therefore, applicants should note that the Office of Justice Programs may conduct or support an evaluation of the programs and activities funded under this solicitation. Recipients and sub-recipients will be expected to cooperate with program-related assessments or evaluation efforts, including through the collection and provision of information or data requested by OJP (or its designee) for the assessment or evaluation of any activities and/or outcomes of those activities funded under this solicitation. The information or data requested may be in addition to any other financial or performance data already required under this program.
B. Federal Award Information

BJA expects to make up to seven awards of up to $500,000 each, with an estimated total amount awarded of up to $3,500,000.

BJA may, in certain cases, provide additional funding in future years to awards made under this solicitation, through continuation awards. In making decisions regarding continuation awards, OJP will consider, among other factors, the availability of appropriations, when the program or project was last competed, OJP’s strategic priorities, and OJP’s assessment of both the management of the award (for example, timeliness and quality of progress reports), and the progress of the work funded under the award.

All awards are subject to the availability of appropriated funds and to any modifications or additional requirements that may be imposed by law.

Type of Award
BJA expects to make awards under this solicitation in the form of a cooperative agreement, which is a type of award that provides for OJP to have substantial involvement in carrying out award activities. See Administrative, National Policy, and Other Legal Requirements, under Section F. Federal Award Administration Information, for a brief discussion of what may constitute substantial federal involvement.

Financial Management and System of Internal Controls
Award recipients and subrecipients (including recipients or subrecipients that are pass-through entities1) must, as described in the Part 200 Uniform Requirements2 as set out at 2 C.F.R. 200.303:

(a) Establish and maintain effective internal control over the Federal award that provides reasonable assurance that [the recipient (and any subrecipient)] is managing the Federal award in compliance with Federal statutes, regulations, and the terms and conditions of the Federal award. These internal controls should be in compliance with guidance in “Standards for Internal Control in the Federal Government” issued by the Comptroller General of the United States and the “Internal Control Integrated Framework”, issued by the Committee of Sponsoring Organizations of the Treadway Commission (COSO).

(b) Comply with Federal statutes, regulations, and the terms and conditions of the Federal awards.

(c) Evaluate and monitor [the recipient’s (and any subrecipient’s)] compliance with statutes, regulations, and the terms and conditions of Federal awards.

(d) Take prompt action when instances of noncompliance are identified including noncompliance identified in audit findings.

(e) Take reasonable measures to safeguard protected personally identifiable information and other information the Federal awarding agency or pass-through entity designates as sensitive or [the recipient (or any subrecipient)] considers sensitive consistent with

---

1 For purposes of this solicitation, the phrase “pass-through entity” includes any recipient or subrecipient that provides a subaward (“subgrant”) to a subrecipient (subgrantee) to carry out part of the funded award or program. Additional information on proposed subawards is listed under What an Application Should Include, Section 4c of this solicitation.

2 The “Part 200 Uniform Requirements” means the DOJ regulation at 2 C.F.R Part 2800, which adopts (with certain modifications) the provisions of 2 C.F.R. Part 200.
applicable Federal, state, local, and tribal laws regarding privacy and obligations of confidentiality.

To help ensure that applicants understand the applicable administrative requirements and cost principles, OJP encourages prospective applicants to enroll, at no charge, in the DOJ Grants Financial Management Online Training, available at https://ojpfgm.webfirst.com/. (This training is required for all OJP award recipients.)

Also, applicants should be aware that OJP collects information from applicants on their financial management and systems of internal controls (among other information) which is used to make award decisions. Under Section D. Application and Submission Information, applicants may access and review a questionnaire—the OJP Financial Management and System of Internal Controls Questionnaire—that OJP requires all applicants (other than an individual applying in his/her personal capacity) to download, complete, and submit as part of the application.

Budget Information
The applicants must be able to meet the funding source eligibility requirements:

- Applicants must articulate the crime(s) or crime type(s) to be addressed by the proposed solution in a separate attachment to the application. This information must be supported by statistical information and state the sustainability of the project at the end of the federal funding period.

Cost Sharing or Match Requirement
This solicitation does not require a match. However, if a successful application proposes a voluntary match amount, and OJP approves the budget, the total match amount incorporated into the approved budget becomes mandatory and subject to audit.

For additional information on cost sharing and match, see the DOJ Grants Financial Guide at https://ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.3b.htm.

Pre-agreement Costs (also known as Pre-award Costs)
Pre-agreement costs are costs incurred by the applicant prior to the start date of the period of performance of the federal award.

OJP does not typically approve pre-agreement costs; an applicant must request and obtain the prior written approval of OJP for all such costs. All such costs incurred prior to award and prior to approval of the costs are incurred at the sole risk of the applicant. (Generally, no applicant should incur project costs before submitting an application requesting federal funding for those costs.) Should there be extenuating circumstances that make it appropriate for OJP to consider approving pre-agreement costs, the applicant may contact the point of contact listed on the title page of this solicitation for the requirements concerning written requests for approval. If approved in advance by OJP, award funds may be used for pre-agreement costs, consistent with the recipient’s approved budget and applicable cost principles. See the section on Costs Requiring Prior Approval in the DOJ Grants Financial Guide at https://ojp.gov/financialguide/DOJ/index.htm for more information.

Limitation on Use of Award Funds for Employee Compensation; Waiver
With respect to any award of more than $250,000 made under this solicitation, a recipient may not use federal funds to pay total cash compensation (salary plus cash bonuses) to any employee of the recipient at a rate that exceeds 110 percent of the maximum annual salary payable to a
member of the federal government’s Senior Executive Service (SES) at an agency with a Certified
SES Performance Appraisal System for that year. The 2018 salary table for SES employees is
available on the Office of Personnel Management website at https://www.opm.gov/policy-data-
may compensate an employee at a greater rate, provided the amount in excess of this
compensation limitation is paid with non-federal funds. (Non-federal funds used for any such
additional compensation will not be considered matching funds, where match requirements apply).
If only a portion of an employee’s time is charged to an OJP award, the maximum allowable
compensation is equal to the percentage of time worked times the maximum salary limitation.

The Assistant Attorney General for OJP may exercise discretion to waive, on an individual
basis, this limitation on compensation rates allowable under an award. An applicant that
requests a waiver should include a detailed justification in the Budget Narrative of its
application. An applicant that does not submit a waiver request and justification with its
application should anticipate that OJP will require the applicant to adjust and resubmit the
budget.

The justification should address, in the context of the work the individual would do under the
award, the particular qualifications and expertise of the individual, the uniqueness of a service
the individual will provide, the individual’s specific knowledge of the proposed program or
project, and a statement that explains whether and how the individual’s salary under the award
would be commensurate with the regular and customary rate for an individual with his/her
qualifications and expertise, and for the work he/she would do under the award.

Prior Approval, Planning, and Reporting of Conference/Meeting/Training Costs
OJP strongly encourages every applicant that proposes to use award funds for any
conference-, meeting-, or training-related activity (or similar event) to review carefully—before
submitting an application—the OJP and DOJ policy and guidance on approval, planning, and
reporting of such events, available at
https://www.ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm. OJP policy
and guidance (1) encourage minimization of conference, meeting, and training costs; (2) require
prior written approval (which may affect project timelines) of most conference, meeting, and
training costs for cooperative agreement recipients, as well as some conference, meeting, and
training costs for grant recipients; and (3) set cost limits, which include a general prohibition of
all food and beverage costs.

Costs Associated with Language Assistance (if applicable)
If an applicant proposes a program or activity that would deliver services or benefits to
individuals, the costs of taking reasonable steps to provide meaningful access to those services
or benefits for individuals with limited English proficiency may be allowable. Reasonable steps
to provide meaningful access to services or benefits may include interpretation or translation
services, where appropriate.

For additional information, see the "Civil Rights Compliance" section under “Overview of Legal
Requirements Generally Applicable to OJP Grants and Cooperative Agreements - FY 2018

3 OJP does not apply this limitation on the use of award funds to the nonprofit organizations listed in Appendix VIII to 2
C. Eligibility Information

For eligibility information, see title page.

For information on cost sharing or match requirements, see Section B. Federal Award Information.

D. Application and Submission Information

What an Application Should Include
This section describes in detail what an application should include. An applicant should anticipate that if it fails to submit an application that contains all of the specified elements, it may negatively affect the review of its application; and, should a decision be made to make an award, it may result in the inclusion of award conditions that preclude the recipient from accessing or using award funds until the recipient satisfies the conditions and OJP makes the funds available.

Moreover, an applicant should anticipate that an application that OJP determines is nonresponsive to the scope of the solicitation, or that OJP determines does not include the application elements that BJA has designated to be critical, will neither proceed to peer review, nor receive further consideration. For this solicitation, BJA has designated the following application elements as critical: Statement of Eligibility, Project Abstract, Program Narrative, Budget Detail Worksheet, and Budget Narrative.

NOTE: OJP has combined the Budget Detail Worksheet and Budget Narrative in a single document collectively referred to as the Budget Detail Worksheet. See “Budget Information and Associated Documentation” below for more information about the Budget Detail Worksheet and where it can be accessed.

Please review the “Note on File Names and File Types” under How To Apply to be sure applications are submitted in permitted formats.

1. Information to Complete the Application for Federal Assistance (SF-424)
   The SF-424 is a required standard form used as a cover sheet for submission of pre-applications, applications, and related information. Grants.gov and the OJP Grants Management System (GMS) take information from the applicant’s profile to populate the fields on this form. When selecting "type of applicant," if the applicant is a for-profit entity, select "For-Profit Organization" or "Small Business" (as applicable).

   To avoid processing delays, an applicant must include an accurate legal name on its SF-424. On the SF-424, current OJP award recipients, when completing the field for “Legal Name” (box 8a), should use the same legal name that appears on the prior year award document (which is also the legal name stored in OJP’s financial system.) Also, these recipients should enter the Employer Identification Number (EIN) in box 8b exactly as it appears on the prior year award document. An applicant with a current, active award(s)
must ensure that its GMS profile is current. If the profile is not current, the applicant should submit a Grant Adjustment Notice updating the information on its GMS profile prior to applying under this solicitation.

A new applicant entity should enter its official legal name in box 8a, its address in box 8d, its EIN in box 8b, and its Data Universal Numbering System (DUNS) number in box 8c of the SF-424. A new applicant entity should attach official legal documents to its application (e.g., articles of incorporation, 501(c)(3) status documentation, organizational letterhead, etc.) to confirm the legal name, address, and EIN entered into the SF-424. OJP will use the System for Award Management (SAM) to confirm the legal name and DUNS number entered in the SF-424; therefore, an applicant should ensure that the information entered in the SF-424 matches its current registration in SAM. See the How To Apply section for more information on SAM and DUNS numbers.

**Intergovernmental Review:** This solicitation ("funding opportunity") is subject to Executive Order 12372. An applicant may find the names and addresses of State Single Points of Contact (SPOCs) at the following website: https://www.whitehouse.gov/wp-content/uploads/2017/11/Intergovernmental_-Review-_SPOC_01_2018_OFFM.pdf. If the State appears on the SPOC list, the applicant must contact the State SPOC to find out about, and comply with, the State’s process under E.O. 12372. In completing the SF-424, an applicant whose State appears on the SPOC list is to make the appropriate selection in response to question 19 once the applicant has complied with its State E.O. 12372 process. (An applicant whose State does not appear on the SPOC list should answer question 19 by selecting the response that the: “Program is subject to E.O. 12372 but has not been selected by the State for review.”)

2. **Statement of Eligibility**

Applications must include in a separate attachment, not to exceed two pages, a clear statement identifying the increase of crime(s) over a two-year period, and a brief indication of how the proposed solution targets the identified increase. This statement must be supported by statistical data. This statement should also include the sustainability of this project upon completion of the federal funding period. This statement of eligibility should be:

- Written for a general public audience.
- Submitted as a separate attachment with “Eligibility” as part of its filename.
- Single-spaced, using a standard 12-point font (Times New Roman) with 1-inch margins.

As a separate attachment, the statement of eligibility will not count against the page limit for the Program Narrative. A sample format can be viewed in Appendix C.

If the “Statement of Eligibility” document is not submitted as part of the application, the application will not be considered for funding.

3. **Project Abstract**

Applications must include a high quality project abstract that summarizes the proposed project in 400 words or less. Project abstracts should be:

- Written for a general public audience.
- Submitted as a separate attachment with “Project Abstract” as part of its file name.
• Single-spaced, using a standard 12-point font (such as Times New Roman) with 1-inch margins.

Applicants are strongly encouraged to propose the development and implementation of technical solutions that can be replicated or reused by other agencies and organizations nationwide that are facing similar criminal justice challenges. This factor should be addressed in the application abstract.

As a separate attachment, the Project Abstract will not count against the page limit for the program narrative. If the project abstract is not submitted as part of the application, the application will not be considered for funding.

4. Program Narrative

The Program Narrative must respond to the appropriate review criteria (described below) in the order given. The Program Narrative should be double-spaced, using a standard 12-point font (Times New Roman is preferred) with 1-inch margins, and should not exceed 10 pages. Number pages “1 of 10,” “2 of 10,” etc.

If the Program Narrative fails to comply with these format and length-related restrictions, BJA may consider such noncompliance in peer review and in final award decisions. If the Program Narrative is not submitted as part of the application, the application will not be considered for funding.

The following sections should be included as part of the Program Narrative:

a. Statement of the Problem
b. Project Design and Implementation
c. Capabilities and Competencies
d. Plan for Collecting the Data Required for this Solicitation’s Performance Measures

OJP will require each successful applicant to submit regular performance data that demonstrate the results of the work carried out under the award (see “General Information about Post-Federal Award Reporting Requirements” in Section F. Federal Award Administration Information). The performance data directly relate to the objectives and deliverables identified under "Objectives and Deliverables" in Section A. Program Description.

Applicants should visit OJP’s Current Funding Opportunities page at www.ojp.gov/performance to view the specific reporting requirements for this grant program.

The application should demonstrate the applicant’s understanding of the performance data reporting requirements for this grant program and detail how the applicant will gather the required data should it receive funding.

---

4 For information on subawards (including the details on proposed subawards that should be included in the application), see "Budget and Associated Documentation" under Section D. Application and Submission Information.
Please note that applicants are not required to submit performance data with the application. Performance measures information is included as an alert that successful applicants will be required to submit performance data as part of the reporting requirements under an award.

Award recipients will be required to provide the relevant data by submitting bi-annual performance metrics as part of their progress reports in GMS.

To assist applicants in developing their plans for collecting and reporting performance measurement data that will meaningfully evaluate progress, the core performance measures for the TIPS program can be viewed in Appendix A: Performance Measures Table.

**Note on Project Evaluations**

An applicant that proposes to use award funds through this solicitation to conduct project evaluations should be aware that certain project evaluations (such as systematic investigations designed to develop or contribute to generalizable knowledge) may constitute “research” for purposes of applicable DOJ human subjects protection regulations. However, project evaluations that are intended only to generate internal improvements to a program or service, or are conducted only to meet OJP’s performance measure data reporting requirements, likely do not constitute “research.” Each applicant should provide sufficient information for OJP to determine whether the particular project it proposes would either intentionally or unintentionally collect and/or use information in such a way that it meets the DOJ definition of research that appears at 28 C.F.R. Part 46 (“Protection of Human Subjects”).

“Research,” for purposes of human subjects protection for OJP-funded programs, is defined as “a systematic investigation, including research development, testing and evaluation, designed to develop or contribute to generalizable knowledge.” 28 C.F.R. 46.102(d).

For additional information on determining whether a proposed activity would constitute research for purposes of human subjects protection, applicants should consult the decision tree in the “Research and the protection of human subjects” section of the “Requirements related to Research” webpage of the "Overview of Legal Requirements Generally Applicable to OJP Grants and Cooperative Agreements - FY 2018 Awards," available through the OJP Funding Resource Center at https://ojp.gov/funding/index.htm. Every prospective applicant whose application may propose a research or statistical component also should review the “Data Privacy and Confidentiality Requirements” section on that webpage.

5. **Budget and Associated Documentation**

The Budget Detail Worksheet and the Budget Narrative are now combined in a single document collectively referred to as the Budget Detail Worksheet. The Budget Detail Worksheet is a user-friendly, fillable, Microsoft Excel-based document designed to calculate totals. Additionally, the Excel workbook contains worksheets for multiple budget years that can be completed as necessary. All applicants should use the Excel version when completing the proposed budget in an application, except in cases where the applicant does not have access to Microsoft Excel or experiences technical difficulties. If an applicant does not have access to Microsoft Excel or experiences technical difficulties with the Excel version,
then the applicant should use the 508-compliant accessible Adobe Portable Document Format (PDF) version.

Both versions of the Budget Detail Worksheet can be accessed at https://ojp.gov/funding/Apply/Forms/BudgetDetailWorksheet.htm.

a. Budget Detail Worksheet
The Budget Detail Worksheet should provide the detailed computation for each budget line item, listing the total cost of each and showing how it was calculated by the applicant. For example, costs for personnel should show the annual salary rate and the percentage of time devoted to the project for each employee paid with grant funds. The Budget Detail Worksheet should present a complete itemization of all proposed costs.

For questions pertaining to budget and examples of allowable and unallowable costs, see the DOJ Grants Financial Guide at https://ojp.gov/financialguide/DOJ/index.htm

b. Budget Narrative
The Budget Narrative should thoroughly and clearly describe every category of expense listed in the Budget Detail Worksheet. OJP expects proposed budgets to be complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities).

An applicant should demonstrate in its budget narrative how it will maximize cost effectiveness of award expenditures. Budget narratives should generally describe cost effectiveness in relation to potential alternatives and the objectives of the project. For example, a budget narrative should detail why planned in-person meetings are necessary, or how technology and collaboration with outside organizations could be used to reduce costs, without compromising quality.

The Budget Narrative should be mathematically sound and correspond clearly with the information and figures provided in the Budget Detail Worksheet. The narrative should explain how the applicant estimated and calculated all costs, and how those costs are necessary to the completion of the proposed project. The narrative may include tables for clarification purposes, but need not be in a spreadsheet format. As with the Budget Detail Worksheet, the Budget Narrative should describe costs by year.

If a Budget Detail Worksheet and Budget Narrative are not submitted as part of the application, the application will not be considered for funding.

c. Information on Proposed Subawards (if any), as well as on Proposed Procurement Contracts (if any)
Applicants for OJP awards typically may propose to make subawards. Applicants also may propose to enter into procurement contracts under the award.

Whether an action—for federal grants administrative purposes—is a subaward or procurement contract is a critical distinction as significantly different rules apply to subawards and procurement contracts. If a recipient enters into an agreement that is a subaward of an OJP award, specific rules apply—many of which are set by federal statutes and DOJ regulations; others by award conditions. These rules place particular responsibilities on an OJP recipient for any subawards the OJP recipient may make. The rules determine much of what the written subaward agreement itself must require or
provide. The rules also determine much of what an OJP recipient must do both before and after it makes a subaward. If a recipient enters into an agreement that is a procurement contract under an OJP award, a substantially different set of federal rules applies.

OJP has developed the following guidance documents to help clarify the differences between subawards and procurement contracts under an OJP award and outline the compliance and reporting requirements for each. This information can be accessed online at https://ojp.gov/training/training.htm.

- Subawards under OJP Awards and Procurement Contracts under Awards: A Toolkit for OJP Recipients.
- Checklist to Determine Subrecipient or Contractor Classification.
- Sole Source Justification Fact Sheet and Sole Source Review Checklist.

In general, the central question is the relationship between what the third-party will do under its agreement with the recipient and what the recipient has committed (to OJP) to do under its award to further a public purpose (e.g., services the recipient will provide, products it will develop or modify, research or evaluation it will conduct). If a third party will provide some of the services the recipient has committed (to OJP) to provide, will develop or modify all or part of a product the recipient has committed (to OJP) to develop or modify, or will conduct part of the research or evaluation the recipient has committed (to OJP) to conduct, OJP will consider the agreement with the third party a subaward for purposes of federal grants administrative requirements.

This will be true even if the recipient, for internal or other non-federal purposes, labels or treats its agreement as a procurement, a contract, or a procurement contract. Neither the title nor the structure of an agreement determines whether the agreement—for purposes of federal grants administrative requirements—is a subaward or is instead a procurement contract under an award. The substance of the relationship should be given greater consideration than the form of agreement between the recipient and the outside entity.

1. Information on proposed subawards
   A recipient of an OJP award may not make subawards ("subgrants") unless the recipient has specific federal authorization to do so. Unless an applicable statute or DOJ regulation specifically authorizes (or requires) subawards, a recipient must have authorization from OJP before it may make a subaward.

   A particular subaward may be authorized by OJP because the recipient included a sufficiently detailed description and justification of the proposed subaward in the Program Narrative, Budget Detail Worksheet, and Budget Narrative as approved by OJP. If, however, a particular subaward is not authorized by federal statute or regulation, and is not approved by OJP, the recipient will be required, post-award, to request and obtain written authorization from OJP before it may make the subaward.

   If an applicant proposes to make one or more subawards to carry out the federal award and program, the applicant should: (1) identify (if known) the proposed subrecipient(s), (2) describe in detail what each subrecipient will do to carry out the federal award and federal program, and (3) provide a justification for the subaward(s), with details on pertinent matters such as special qualifications and
areas of expertise. Pertinent information on subawards should appear not only in the Program Narrative, but also in the Budget Detail Worksheet and Budget Narrative.

2. Information on proposed procurement contracts (with specific justification for proposed noncompetitive contracts over $150,000)

Unlike a recipient contemplating a subaward, a recipient of an OJP award generally does not need specific prior federal authorization to enter into an agreement that—for purposes of federal grants administrative requirements—is considered a procurement contract, provided that (1) the recipient uses its own documented procurement procedures and (2) those procedures conform to applicable federal law, including the Procurement Standards of the (DOJ) Part 200 Uniform Requirements (as set out at 2 C.F.R. 200.317 - 200.326). The Budget Detail Worksheet and Budget Narrative should identify proposed procurement contracts. (As discussed above, subawards must be identified and described separately from procurement contracts.)

The Procurement Standards in the Part 200 Uniform Requirements, however, reflect a general expectation that agreements that (for purposes of federal grants administrative requirements) constitute procurement “contracts” under awards will be entered into on the basis of full and open competition. All noncompetitive (sole source) procurement contracts must meet the OJP requirements outlined at https://ojp.gov/training/subawards-procurement.htm. If a proposed procurement contract would exceed the simplified acquisition threshold—currently, $150,000—a recipient of an OJP award may not proceed without competition unless and until the recipient receives specific advance authorization from OJP to use a non-competitive approach for the procurement. An applicant that (at the time of its application) intends—without competition—to enter into a procurement contract that would exceed $150,000 should include a detailed justification that explains to OJP why, in the particular circumstances, it is appropriate to proceed without competition.

If the applicant receives an award, sole source procurements that do not exceed the Simplified Acquisition Threshold (currently $150,000) must have written justification for the noncompetitive procurement action maintained in the procurement file. If a procurement file does not have the documentation that meets the criteria outlined in 2 C.F.R. 200, the procurement expenditures may not be allowable. Sole source procurement over the $150,000 Simplified Acquisition Threshold must have prior approval from OJP using a Sole Source Grant Adjustment Notice (GAN). Written documentation justifying the noncompetitive procurement must be submitted with the GAN and maintained in the procurement file.

d. Pre-Agreement Costs

For information on pre-agreement costs, see Section B. Federal Award Information.

6. Indirect Cost Rate Agreement (if applicable)

Indirect costs may be charged to an award only if:

(a) The recipient has a current (unexpired), federally approved indirect cost rate; or
(b) The recipient is eligible to use, and elects to use, the “de minimis” indirect cost rate described in the Part 200 Uniform Requirements, as set out at 2 C.F.R. 200.414(f).

An applicant with a current (unexpired) federally approved indirect cost rate is to attach a copy of the indirect cost rate agreement to the application. An applicant that does not have a current federally approved rate may request one through its cognizant federal agency, which
will review all documentation and approve a rate for the applicant entity, or, if the applicant’s
accounting system permits, applicants may propose to allocate costs in the direct cost
categories.

For assistance with identifying the appropriate cognizant federal agency for indirect costs,
please contact the Office of the Chief Financial Officer (OCFO) Customer Service Center at
1–800–458–0786 or at ask.ocfo@usdoj.gov. If DOJ is the cognizant federal agency,
applicants may obtain information needed to submit an indirect cost rate proposal at
https://www.ojp.gov/funding/Apply/Resources/IndirectCosts.pdf.

Certain OJP recipients have the option of electing to use the “de minimis” indirect cost rate.
An applicant that is eligible to use the “de minimis” rate that wishes to use the "de minimis”
rate should attach written documentation to the application that advises OJP of both—(1)
the applicant’s eligibility to use the “de minimis” rate, and (2) its election to do so. If an
eligible applicant elects the “de minimis” rate, costs must be consistently charged as either
indirect or direct costs, but may not be double charged or inconsistently charged as both.
The "de minimis" rate may no longer be used once an approved federally negotiated indirect
cost rate is in place. (No entity that ever has had a federally approved negotiated indirect
cost rate is eligible to use the "de minimis" rate.) For additional eligibility requirements,
please see Part 200 Uniform Requirements, as set out at https://www.ecfr.gov/cgi-bin/text-
idx?node=se2.1.200_1414&rgn=div8.

7. **Financial Management and System of Internal Controls Questionnaire (including
applicant disclosure of high risk status)**

Every OJP applicant (other than an individual applying in his or her personal capacity) is
required to download, complete, and submit the OJP Financial Management and System of
Internal Controls Questionnaire (Questionnaire) at
https://ojp.gov/funding/Apply/Resources/FinancialCapability.pdf as part of its application.
The Questionnaire helps OJP assess the financial management and internal control
systems, and the associated potential risks of an applicant as part of the pre-award risk
assessment process.

The Questionnaire should only be completed by financial staff most familiar with the
applicant's systems, policies, and procedures in order to ensure that the correct responses
are recorded and submitted to OJP. The responses on the Questionnaire directly impact the
pre-award risk assessment and should accurately reflect the applicant’s financial
management and internal control system at the time of the application. The pre-award risk
assessment is only one of multiple factors and criteria used in determining funding.
However, a pre-award risk assessment that indicates that an applicant poses a higher risk to
OJP may affect the funding decision and/or result in additional reporting requirements,
monitoring, special conditions, withholding of award funds, or other additional award
requirements.

Among other things, the form requires each applicant to disclose whether it currently is
designated “high risk” by a federal grant-making agency outside of DOJ. For purposes of
this disclosure, high risk includes any status under which a federal awarding agency
provides additional oversight due to the applicant's past performance, or other programmatic
or financial concerns with the applicant. If an applicant is designated high risk by another
federal awarding agency, the applicant must provide the following information:

- The federal awarding agency that currently designates the applicant high risk
• The date the applicant was designated high risk
• The high risk point of contact at that federal awarding agency (name, phone number, and email address)
• The reasons for the high risk status, as set out by the federal awarding agency

OJP seeks this information to help ensure appropriate federal oversight of OJP awards. An applicant that is considered “high risk” by another federal awarding agency is not automatically disqualified from receiving an OJP award. OJP may, however, consider the information in award decisions, and may impose additional OJP oversight of any award under this solicitation (including through the conditions that accompany the award document).

8. Disclosure of Lobbying Activities
Each applicant must complete and submit this information. An applicant that expends any funds for lobbying activities is to provide all of the information requested on the form Disclosure of Lobbying Activities (SF-LLL) posted at https://ojp.gov/funding/Apply/Resources/Disclosure.pdf. An applicant that does not expend any funds for lobbying activities is to enter “N/A” in the text boxes for item 10 (“a. Name and Address of Lobbying Registrant” and “b. Individuals Performing Services”).

9. Additional Attachments

a. Project Timeline
   Applicants should attach a project timeline with each project goal, related objective, activity, expected completion date, and responsible person or organization.

b. Position Descriptions/Résumés
   Applicants should attach position descriptions for key positions and résumés for current staff.

c. Applicant Disclosure of Pending Applications
   Each applicant is to disclose whether it has (or is proposed as a subrecipient under) any pending applications for federally funded grants or cooperative agreements that (1) include requests for funding to support the same project being proposed in the application under this solicitation, and (2) would cover any identical cost items outlined in the budget submitted to OJP as part of the application under this solicitation. The applicant is to disclose applications made directly to federal awarding agencies, and also applications for subawards of federal funds (e.g., applications to state agencies that will subaward (“subgrant”) federal funds).

   OJP seeks this information to help avoid inappropriate duplication of funding. Leveraging multiple funding sources in a complementary manner to implement comprehensive programs or projects is encouraged and is not seen as inappropriate duplication.

   Each applicant that has one or more pending applications as described above is to provide the following information about pending applications submitted within the last 12 months:

   • The federal or state funding agency
   • The solicitation name/project name
• The point of contact information at the applicable federal or state funding agency

<table>
<thead>
<tr>
<th>Federal or State Funding Agency</th>
<th>Solicitation Name/Project Name</th>
<th>Name/Phone/Email for Point of Contact at Federal or State Funding Agency</th>
</tr>
</thead>
<tbody>
<tr>
<td>DOJ/Office of Community Oriented Policing Services (COPS)</td>
<td>COPS Hiring Program</td>
<td>Jane Doe, 202/000-0000; <a href="mailto:jane.doe@usdoj.gov">jane.doe@usdoj.gov</a></td>
</tr>
<tr>
<td>Health and Human Services/Substance Abuse and Mental Health Services Administration</td>
<td>Drug-Free Communities Mentoring Program/ North County Youth Mentoring Program</td>
<td>John Doe, 202/000-0000; <a href="mailto:john.doe@hhs.gov">john.doe@hhs.gov</a></td>
</tr>
</tbody>
</table>

Each applicant should include the table as a separate attachment to its application. The file should be named “Disclosure of Pending Applications.” The applicant’s Legal Name on the application must match the entity named on the disclosure of pending applications statement.

Any applicant that does not have any pending applications as described above is to submit, as a separate attachment, a statement to this effect: “[Applicant Name on SF-424] does not have (and is not proposed as a subrecipient under) any pending applications submitted within the last 12 months for federally funded grants or cooperative agreements (or for subawards under federal grants or cooperative agreements) that request funding to support the same project being proposed in this application to OJP and that would cover any identical cost items outlined in the budget submitted as part of this application.”

d. Research and Evaluation Independence and Integrity
If an application proposes research (including research and development) and/or evaluation, the applicant must demonstrate research/evaluation independence and integrity, including appropriate safeguards, before it may receive award funds. The applicant must demonstrate independence and integrity regarding both this proposed research and/or evaluation, and any current or prior related projects.

Each application should include an attachment that addresses both i. and ii. below:

i. For purposes of this solicitation, each applicant is to document research and evaluation independence and integrity by including one of the following two items:

   a. A specific assurance that the applicant has reviewed its application to identify any actual or potential apparent conflicts of interest (including through review of pertinent information on the principal investigator, any co-principal investigators, and any subrecipients), and that the applicant has identified no such conflicts of interest—whether personal or financial or organizational (including on the part of the applicant entity or on the part of staff,
investigators, or subrecipients)—that could affect the independence or integrity of the research, including the design, conduct, and reporting of the research.

OR

b. A specific description of actual or potential apparent conflicts of interest that the applicant has identified—including through review of pertinent information on the principal investigator, any co-principal investigators, and any subrecipients—that could affect the independence or integrity of the research, including the design, conduct, or reporting of the research. These conflicts may be personal (e.g., on the part of investigators or other staff), financial, or organizational (related to the applicant or any subrecipient entity). Some examples of potential investigator (or other personal) conflict situations are those in which an investigator would be in a position to evaluate a spouse’s work product (actual conflict), or an investigator would be in a position to evaluate the work of a former or current colleague (potential apparent conflict). With regard to potential organizational conflicts of interest, as one example, generally an organization would not be given an award to evaluate a project, if that organization had itself provided substantial prior technical assistance to that specific project or a location implementing the project (whether funded by OJP or other sources), because the organization in such an instance might appear to be evaluating the effectiveness of its own prior work. The key is whether a reasonable person understanding all of the facts would be able to have confidence that the results of any research or evaluation project are objective and reliable. Any outside personal or financial interest that casts doubt on that objectivity and reliability of an evaluation or research product is a problem and must be disclosed.

ii. In addition, for purposes of this solicitation, each applicant is to address possible mitigation of research integrity concerns by including, at a minimum, one of the following two items:

a. If an applicant reasonably believes that no actual or potential apparent conflicts of interest (personal, financial, or organizational) exist, then the applicant should provide a brief narrative explanation of how and why it reached that conclusion. The applicant also is to include an explanation of the specific processes and procedures that the applicant has in place, or will put in place, to identify and prevent (or, at the very least, mitigate) any such conflicts of interest pertinent to the funded project during the period of performance. Documentation that may be helpful in this regard may include organizational codes of ethics/conduct and policies regarding organizational, personal, and financial conflicts of interest. There is no guarantee that the plan, if any, will be accepted as proposed.

OR

b. If the applicant has identified actual or potential apparent conflicts of interest (personal, financial, or organizational) that could affect the independence and integrity of the research, including the design, conduct, or reporting of the research, the applicant is to provide a specific and robust mitigation plan to
address each of those conflicts. At a minimum, the applicant is expected to explain the specific processes and procedures that the applicant has in place, or will put in place, to identify and eliminate (or, at the very least, mitigate) any such conflicts of interest pertinent to the funded project during the period of performance. Documentation that may be helpful in this regard may include organizational codes of ethics/conduct and policies regarding organizational, personal, and financial conflicts of interest. There is no guarantee that the plan, if any, will be accepted as proposed.

OJP will assess research and evaluation independence and integrity based on considerations such as the adequacy of the applicant's efforts to identify factors that could affect the objectivity or integrity of the proposed staff and/or the applicant entity (and any subrecipients) in carrying out the research, development, or evaluation activity; and the adequacy of the applicant's existing or proposed remedies to control any such factors.

e. Disclosure of Process Related to Executive Compensation
An applicant that is a nonprofit organization may be required to make certain disclosures relating to the processes it uses to determine the compensation of its officers, directors, trustees, and key employees.

Under certain circumstances, a nonprofit organization that provides unreasonably high compensation to certain persons may subject both the organization’s managers and those who receive the compensation to additional federal taxes. A rebuttable presumption of the reasonableness of a nonprofit organization’s compensation arrangements, however, may be available if the nonprofit organization satisfied certain rules set out in Internal Revenue Service (IRS) regulations with regard to its compensation decisions.

Each applicant nonprofit organization must state at the time of its application (question 9c in the "OJP Financial Management and System of Internal Controls Questionnaire" located at http://ojp.gov/funding/Apply/Resources/FinancialCapability.pdf and mentioned earlier) whether or not the applicant entity believes (or asserts) that it currently satisfies the requirements of 26 C.F.R. 53.4958-6 (which relate to establishing or invoking a rebuttable presumption of reasonableness of compensation of certain individuals and entities).

A nonprofit organization that states in the questionnaire that it believes (or asserts) that it has satisfied the requirements of 26 C.F.R. 53.4958-6 must then disclose, in an attachment to its application (to be titled "Disclosure of Process Related to Executive Compensation"), the process used by the applicant nonprofit organization to determine the compensation of its officers, directors, trustees, and key employees (together, "covered persons").

At a minimum, the disclosure must describe in pertinent detail: (1) the composition of the body that reviews and approves compensation arrangements for covered persons; (2) the methods and practices used by the applicant nonprofit organization to ensure that no individual with a conflict of interest participates as a member of the body that reviews and approves a compensation arrangement for a covered person; (3) the appropriate data as to comparability of compensation that is obtained in advance and relied upon by the body that reviews and approves compensation arrangements for covered persons;
and (4) the written or electronic records that the applicant organization maintains as concurrent documentation of the decisions with respect to compensation of covered persons made by the body that reviews and approves such compensation arrangements, including records of deliberations and of the basis for decisions.

For purposes of the required disclosure, the following terms and phrases have the meanings set out by the IRS for use in connection with 26 C.F.R. 53.4958-6: officers, directors, trustees, key employees, compensation, conflict of interest, appropriate data as to comparability, adequate documentation, and concurrent documentation.

Applicant nonprofit organizations should note that following receipt of an appropriate request, OJP may be authorized or required by law to make information submitted to satisfy this requirement available for public inspection. Also, a recipient may be required to make a prompt supplemental disclosure after the award in certain circumstances (e.g., changes in the way the organization determines compensation).

How To Apply
Applicants must register in and submit applications through Grants.gov, a primary source to find federal funding opportunities and apply for funding. Find complete instructions on how to register and submit an application at https://www.grants.gov/web/grants/support.html. Applicants that experience technical difficulties during this process should call the Grants.gov Customer Support Hotline at 800–518–4726 or 606–545–5035, which operates 24 hours a day, 7 days a week, except on federal holidays.

Important Grants.gov update. Grants.gov has updated its application tool. The legacy PDF application package has been phased out and was retired on December 31, 2017. Grants.gov Workspace is now the standard application method for applying for grants. OJP applicants should familiarize themselves with the Workspace option now. For complete information and instructions on using Workspace (and other changes), go to the Workspace Overview page at https://www.grants.gov/web/grants/applicants/workspace-overview.html.

Registering with Grants.gov is a one-time process; however, processing delays may occur, and it can take several weeks for first-time registrants to receive confirmation of registration and a user password. OJP encourages applicants to register several weeks before the application submission deadline. In addition, OJP urges applicants to submit applications at least 72 hours prior to the application due date, in order to allow time for the applicant to receive validation messages or rejection notifications from Grants.gov, and to correct in a timely fashion any problems that may have caused a rejection notification.

OJP strongly encourages all prospective applicants to sign up for Grants.gov email notifications regarding this solicitation at https://www.grants.gov/web/grants/manage-subscriptions.html. If this solicitation is cancelled or modified, individuals who sign up with Grants.gov for updates will be automatically notified.

Browser Information: Grants.gov was built to be compatible with Internet Explorer. For technical assistance with Google Chrome, or another browser, contact Grants.gov Customer Support.

Note on Attachments: Grants.gov has two categories of files for attachments: “mandatory” and “optional.” OJP receives all files attached in both categories. Attachments are also labeled to describe the file being attached (e.g., Project Narrative, Budget Narrative, Other, etc.) Please
ensure that all required documents are attached in the correct Grants.gov category and are labeled correctly. Do not embed “mandatory” attachments within another file.

**Note on File Names and File Types:** Grants.gov only permits the use of certain specific characters in the file names of attachments. Valid file names may include only the characters shown in the table below. Grants.gov rejects any application that includes an attachment(s) with a file name that contains any characters not shown in the table below. Grants.gov forwards successfully submitted applications to the OJP Grants Management System (GMS).

<td>Parenthesis ( )</td>
</tr>
</tbody>
</table>

*When using the ampersand (&) in XML, applicants must use the “&amp;” format.

**GMS does not accept executable file types as application attachments.** These disallowed file types include, but are not limited to, the following extensions: “.com,” “.bat,” “.exe,” “.vbs,” “.cfg,” “.dat,” “.db,” “.dbf,” “.dll,” “.ini,” “.log,” “.ora,” “.sys,” and “.zip.” GMS may reject applications with files that use these extensions. It is important to allow time to change the type of file(s) if the application is rejected.

All applicants are required to complete the following steps:

**Unique Entity Identifier (DUNS Number) and System for Award Management (SAM)**

Every applicant entity must comply with all applicable System for Award Management (SAM) and unique entity identifier (currently, a Data Universal Numbering System (DUNS) number) requirements. SAM is the repository for certain standard information about federal financial assistance applicants, recipients, and subrecipients. A DUNS number is a unique nine-digit identification number provided by the commercial company Dun and Bradstreet. More detailed information about SAM and the DUNS number is in the numbered sections below.

If an applicant entity has not fully complied with the applicable SAM and unique identifier requirements by the time OJP makes award decisions, OJP may determine that the applicant is not qualified to receive an award and may use that determination as a basis for making the award to a different applicant.

**Applying as an Individual**

An individual who wishes to apply in his/her personal capacity should search Grants.gov for funding opportunities for which individuals are eligible to apply. Use the Funding Opportunity Number (FON) to register. (An applicant applying as an individual must comply with all applicable Grants.gov individual registration requirements.)

Enter the FON at [https://apply07.grants.gov/apply/IndCPRegister](https://apply07.grants.gov/apply/IndCPRegister) to complete the registration form and create a username and password for Grants.gov. (An applicant applying as an individual should complete all steps below except 1, 2 and 4.)
Registration and Submission Steps

1. **Acquire a unique entity identifier (currently, a DUNS number).** In general, the Office of Management and Budget requires every applicant for a federal award (other than an individual) to include a "unique entity identifier" in each application, including an application for a supplemental award. Currently, a DUNS number is the required unique entity identifier.

   This unique entity identifier is used for tracking purposes, and to validate address and point of contact information for applicants, recipients, and subrecipients. It will be used throughout the life cycle of an OJP award. Obtaining a DUNS number is a free, one-time activity. Call Dun and Bradstreet at 866–705–5711 to obtain a DUNS number or apply online at [https://www.dnb.com/](https://www.dnb.com/). A DUNS number is usually received within 1–2 business days.

2. **Acquire or maintain registration with SAM.** All applicants for OJP awards (other than individuals) must maintain current registrations in the SAM database. Applicants will need the authorizing official of the organization and an Employer Identification Number (EIN). An applicant must be registered in SAM to successfully register in Grants.gov. Each applicant must update or renew its SAM registration at least annually to maintain an active status. SAM registration and renewal can take as long as 10 business days to complete (2 more weeks to acquire an EIN).

   An application cannot be successfully submitted in Grants.gov until Grants.gov receives the SAM registration information. Once the SAM registration/renewal is complete, the information transfer from SAM to Grants.gov can take as long as 48 hours. OJP recommends that the applicant register or renew registration with SAM as early as possible.

   Information about SAM registration procedures can be accessed at [www.SAM.gov](http://www.SAM.gov).

3. **Acquire an Authorized Organization Representative (AOR) and a Grants.gov username and password.** Complete the AOR profile on Grants.gov and create a username and password. An applicant entity’s “unique entity identifier” (DUNS number) must be used to complete this step. For more information about the registration process for organizations and other entities, go to [https://www.grants.gov/web/grants/applicants/organization-registration.html](https://www.grants.gov/web/grants/applicants/organization-registration.html). Individuals registering with Grants.gov should go to [https://www.grants.gov/web/grants/applicants/registration.html](https://www.grants.gov/web/grants/applicants/registration.html).

4. **Acquire confirmation for the AOR from the E-Business Point of Contact (E-Biz POC).** The E-Biz POC at the applicant organization must log into Grants.gov to confirm the applicant organization’s AOR. The E-Biz POC will need the Marketing Partner Identification Number (MPIN) password obtained when registering with SAM to complete this step. Note that an organization can have more than one AOR.

5. **Search for the funding opportunity on Grants.gov.** Use the following identifying information when searching for the funding opportunity on Grants.gov. The Catalog of Federal Domestic Assistance (CFDA) number for this solicitation is 16.738, titled “Edward Byrne Memorial Justice Assistance Grant Program” and the funding number is BJA-2018-13568.

6. **Access Funding Opportunity and Application Package from Grants.gov.** Select “Apply” under the “Actions” column. Enter your email address to be notified of any changes to the
opportunity package before the closing date. Click the Workspace icon to use Grants.gov Workspace.

7. **Submit a valid application consistent with this solicitation by following the directions in Grants.gov.** Within 24–48 hours after submitting the electronic application, the applicant should receive two notifications from Grants.gov. The first will confirm the receipt of the application. The second will state whether the application has been validated and successfully submitted, or whether it has been rejected due to errors, with an explanation. It is possible to first receive a message indicating that the application is received, and then receive a rejection notice a few minutes or hours later. Submitting an application well ahead of the deadline provides time to correct the problem(s) that caused the rejection. **Important:** OJP urges each applicant to submit its application **at least 72 hours prior** to the application due date, to allow time to receive validation messages or rejection notifications from Grants.gov, and to correct in a timely fashion any problems that may have caused a rejection notification. Applications must be successfully submitted through Grants.gov by 11:59 p.m. eastern time on May 1, 2018.

Go to [https://www.grants.gov/web/grants/applicants/organization-registration.html](https://www.grants.gov/web/grants/applicants/organization-registration.html) for further details on DUNS numbers, SAM, and Grants.gov registration steps and timeframes.

**Note: Application Versions**

If an applicant submits multiple versions of the same application, OJP will review only the most recent system-validated version submitted.

**Experiencing Unforeseen Grants.gov Technical Issues**

An applicant that experiences unforeseen Grants.gov technical issues beyond its control that prevent it from submitting its application by the deadline must contact the Grants.gov Customer Support Hotline at [https://www.grants.gov/web/grants/support.html](https://www.grants.gov/web/grants/support.html) or the SAM Help Desk (Federal Service Desk) at [https://www.fsd.gov/fsd-gov/home.do](https://www.fsd.gov/fsd-gov/home.do) to report the technical issue and receive a tracking number. The applicant must email the contact identified in the Contact Information section on the title page **within 24 hours after the application deadline** to request approval to submit its application after the deadline. The applicant's email must describe the technical difficulties, and must include a timeline of the applicant's submission efforts, the complete grant application, the applicant's DUNS number, and any Grants.gov Help Desk or SAM tracking number(s).

**Note: OJP does not automatically approve requests to submit a late application.** After OJP reviews the applicant's request, and contacts the Grants.gov or SAM Help Desks to verify the reported technical issues, OJP will inform the applicant whether the request to submit a late application has been approved or denied. If OJP determines that the untimely application submission was due to the applicant's failure to follow all required procedures, OJP will deny the applicant's request to submit its application.

The following conditions generally are insufficient to justify late submissions:

- Failure to register in SAM or Grants.gov in sufficient time (SAM registration and renewal can take as long as 10 business days to complete. The information transfer from SAM to Grants.gov can take up to 48 hours.)
- Failure to follow Grants.gov instructions on how to register and apply as posted on its website
- Failure to follow each instruction in the OJP solicitation
• Technical issues with the applicant’s computer or information technology environment, such as issues with firewalls or browser incompatibility

Notifications regarding known technical problems with Grants.gov, if any, are posted at the top of the OJP Funding Resource Center at https://ojp.gov/funding/index.htm.

E. Application Review Information

Review Criteria
Applications that meet basic minimum requirements will be evaluated by peer reviewers using the following review criteria.

1. Statement of the Problem (20 percent)
   Describe the specific crime(s) identified in the Statement of Eligibility that will be addressed through this project and why it is a problem for this geographic area.

2. Project Design and Implementation (40 percent)
   a) Explain how the proposed project will address the identified crime(s) to be addressed in this project and how the project may reduce crime.
   b) Describe the current level of readiness to implement the proposed solution. Identify any issues or challenges related to implementation readiness, and explain how these will be addressed through this project.
   c) Explain how the proposed project can be used as a promising practice to other agencies that may be experiencing the same type of crime problems. Also, identify any portions of the project that may be replicable to other agencies.
   d) Identify additional resources necessary for successful project completion such as outside organizational partners, state or local practitioner groups, etc.
   e) Describe how the proposed project will be coordinated with the USAO district PSN team.

3. Capabilities and Competencies (20 percent)
   Fully describe the capabilities to successfully implement the project and the competencies of the staff assigned to the project. In addition, applicants should demonstrate sound knowledge of the GSP and describe any current or previous experiences using the GSP to enhance information sharing.

4. Plan for Collecting the Data Required for this Solicitation's Performance Measures (5 percent)
   Describe the process for measuring project performance. Identify who will collect the data, who is responsible for performance measurement, and how the information will be used to guide and evaluate the impact of the program. Describe the process to accurately report implementation findings and, specifically, the impact of the solution on criminal justice operational practices. Applicants should identify and describe both outputs and outcomes they anticipate as a result of their proposed implementation strategy, and a process for measuring these.

5. Budget (15 percent)
   Provide a proposed budget that is complete, cost effective, and allowable (e.g., reasonable, allocable, and necessary for project activities). Budget Narratives should detail
how applicants will maximize cost effectiveness of grant expenditures. Budget Narratives should demonstrate cost effectiveness in relation to potential alternatives and the objectives of the project. In the Budget Narrative, applicants must fully explain why the proposed expenditures are necessary to support implementation of the technical solution described in the Program Narrative.

Applicants should also budget travel/lodging expenses for one visit to the Washington, DC area to meet with federal officials and/or take part in BJA-sponsored grantee meeting as directed. It is expected that this meeting would be for a minimum of 3 days and 2 nights, for at least one representative from the project. Additional attendees may attend with a maximum of three.

Review Process
OJP is committed to ensuring a fair and open process for making awards. BJA reviews the application to make sure that the information presented is reasonable, understandable, measurable, and achievable, as well as consistent with the solicitation.

Peer reviewers will review the applications submitted under this solicitation that meet basic minimum requirements. For purposes of assessing whether an application meets basic minimum requirements and should proceed to further consideration, OJP screens applications for compliance with those requirements. Although specific requirements may vary, the following are common requirements applicable to all solicitations for funding under OJP programs:

- The application must be submitted by an eligible type of applicant.
- The application must request funding within programmatic funding constraints (if applicable).
- The application must be responsive to the scope of the solicitation.
- The application must include all items designated as “critical elements.”
- The applicant must not be identified in SAM as excluded from receiving federal awards.

For a list of the critical elements for this solicitation, see “What an Application Should Include” under Section D. Application and Submission Information.

Peer review panels will evaluate, score, and rate applications that meet basic minimum requirements. BJA may use internal peer reviewers, external peer reviewers, or a combination, to assess applications on technical merit using the solicitation’s review criteria. An external peer reviewer is an expert in the subject matter of a given solicitation who is not a current DOJ employee. An internal reviewer is a current DOJ employee who is well-versed or has expertise in the subject matter of this solicitation. Peer reviewers’ ratings and any resulting recommendations are advisory only, although reviewer views are considered carefully. Other important considerations for BJA include geographic diversity, strategic priorities, and available funding, as well as the extent to which the Budget Detail Worksheet and Budget Narrative accurately explain project costs that are reasonable, necessary, and otherwise allowable under federal law and applicable federal cost principles.

Pursuant to the Part 200 Uniform Requirements, before award decisions are made, OJP also reviews information related to the degree of risk posed by the applicant. Among other things to

---

5 Generally speaking, a reasonable cost is a cost that, in its nature or amount, does not exceed that which would be incurred by a prudent person under the circumstances prevailing at the time the decision was made to incur the costs.
help assess whether an applicant that has one or more prior federal awards has a satisfactory record with respect to performance, integrity, and business ethics, OJP checks whether the applicant is listed in SAM as excluded from receiving a federal award.

In addition, if OJP anticipates that an award will exceed $150,000 in federal funds, OJP also must review and consider any information about the applicant that appears in the non-public segment of the integrity and performance system accessible through SAM (currently, the Federal Awardee Performance and Integrity Information System, FAPIIS).

**Important note on FAPIIS:** An applicant, at its option, may review and comment on any information about itself that currently appears in FAPIIS and was entered by a federal awarding agency. OJP will consider any such comments by the applicant, in addition to the other information in FAPIIS, in its assessment of the risk posed by the applicant.

The evaluation of risks goes beyond information in SAM, however. OJP itself has in place a framework for evaluating risks posed by applicants for competitive awards. OJP takes into account information pertinent to matters such as:

1. Applicant financial stability and fiscal integrity
2. Quality of the applicant’s management systems, and the applicant’s ability to meet prescribed management standards, including those outlined in the DOJ Grants Financial Guide
3. Applicant's history of performance under OJP and other DOJ awards (including compliance with reporting requirements and award conditions), as well as awards from other federal agencies
4. Reports and findings from audits of the applicant, including audits under the Part 200 Uniform Requirements
5. Applicant's ability to comply with statutory and regulatory requirements, and to effectively implement other award requirements.

Absent explicit statutory authorization or written delegation of authority to the contrary, all final award decisions will be made by the Assistant Attorney General, who may take into account not only peer review ratings and BJA recommendations, but also other factors as indicated in this section.

**F. Federal Award Administration Information**

**Federal Award Notices**
Award notifications will be made by September 30, 2018. OJP sends award notifications by email through GMS to the individuals listed in the application as the point of contact and the authorizing official (E-Biz POC and AOR). The email notification includes detailed instructions on how to access and view the award documents, and steps to take in GMS to start the award acceptance process. GMS automatically issues the notifications at 9:00 p.m. eastern time on the award date.

For each successful applicant, an individual with the necessary authority to bind the applicant will be required to log in; execute a set of legal certifications and a set of legal assurances; designate a financial point of contact; thoroughly review the award, including all award conditions; and sign and accept the award. The award acceptance process requires physical
signature of the award document by the authorized representative and the scanning and submission of the fully executed award document to OJP.

**Administrative, National Policy, and Other Legal Requirements**
If selected for funding, in addition to implementing the funded project consistent with the OJP-approved application, the recipient must comply with all award conditions, as well as all applicable requirements of federal statutes and regulations (including applicable requirements referred to in the assurances and certifications executed in connection with award acceptance). OJP strongly encourages prospective applicants to review information on post-award legal requirements and common OJP award conditions prior to submitting an application.

Applicants should consult the “[Overview of Legal Requirements Generally Applicable to OJP Grants and Cooperative Agreements - FY 2018 Awards](https://ojp.gov/funding/index.htm),” available in the OJP Funding Resource Center at https://ojp.gov/funding/index.htm. In addition, applicants should examine the following two legal documents, as each successful applicant must execute both documents before it may receive any award funds. (An applicant is not required to submit these documents as part of an application.)

- **Certifications Regarding Lobbying; Debarment, Suspension and Other Responsibility Matters; and Drug-Free Workplace Requirements**
- **Certified Standard Assurances**

The webpages accessible through the “[Overview of Legal Requirements Generally Applicable to OJP Grants and Cooperative Agreements - FY 2018 Awards](https://ojp.gov/funding/index.htm)" are intended to give applicants for OJP awards a general overview of important statutes, regulations, and award conditions that apply to many (or in some cases, all) OJP grants and cooperative agreements awarded in FY 2018. Individual OJP awards typically also will include additional award conditions. Those additional conditions may relate to the particular statute, program, or solicitation under which the award is made; to the substance of the funded application; to the recipient's performance under other federal awards; to the recipient's legal status (e.g., as a for-profit entity); or to other pertinent considerations.

As stated above, BJA expects that it will make awards under this solicitation in the form of a cooperative agreement. Cooperative agreements include a condition in the award document that sets out the nature of the “substantial federal involvement” in carrying out the award and program. Generally stated, under OJP cooperative agreement awards, responsibility for the day-to-day conduct of the funded project rests with the recipient. OJP, however, may have substantial involvement in matters such as substantive coordination of technical efforts and site selection, as well as review and approval of project work plans, research designs, data collection instruments, and major project-generated materials. In addition, OJP often indicates in the award terms and conditions that it may redirect the project if necessary.

In addition to an award condition that sets out the nature of the anticipated “substantial federal involvement” in the award, cooperative agreements awarded by OJP include an award condition that requires specific reporting in connection with conferences, meetings, retreats, seminars, symposia, training activities, or similar events funded under the award.

**General Information about Post-Federal Award Reporting Requirements**
In addition to the deliverables described in [Section A. Program Description](#), any recipient of an award under this solicitation will be required to submit the following reports and data.
Required reports. Recipients typically must submit quarterly financial reports, semi-annual progress reports, final financial and progress reports, and, if applicable, an annual audit report in accordance with the Part 200 Uniform Requirements or specific award conditions. Future awards and fund drawdowns may be withheld if reports are delinquent. (In appropriate cases, OJP may require additional reports.)

Awards that exceed $500,000 will include an additional condition that, under specific circumstances, will require the recipient to report (to FAPIIS) information on civil, criminal, and administrative proceedings connected with (or connected to the performance of) either the OJP award or any other grant, cooperative agreement, or procurement contract from the federal government. Additional information on this reporting requirement appears in the text of the award condition posted on the OJP webpage at https://ojp.gov/funding/FAPIIS.htm.

Data on performance measures. In addition to required reports, each award recipient also must provide data that measure the results of the work done under the award. To demonstrate program progress and success, as well as to assist DOJ in fulfilling its responsibilities under the Government Performance and Results Act of 1993 (GPRA), Public Law 103–62, and the GPRA Modernization Act of 2010, Public Law 111–352, OJP will require any award recipient, post award, to provide performance data as part of regular progress reporting. Successful applicants will be required to access OJP’s performance measurement page at www.ojp.gov/performance to view the specific reporting requirements for this grant program. Performance measures are also listed as Appendix A.

G. Federal Awarding Agency Contact(s)

For OJP Contact(s), see title page.

For contact information for Grants.gov, see the title page.

H. Other Information

All applications submitted to OJP (including all attachments to applications) are subject to the federal Freedom of Information Act (FOIA) and to the Privacy Act. By law, DOJ may withhold information that is responsive to a request pursuant to FOIA if DOJ determines that the responsive information either is protected under the Privacy Act or falls within the scope of one of nine statutory exemptions under FOIA. DOJ cannot agree in advance of a request pursuant to FOIA not to release some or all portions of an application.

In its review of records that are responsive to a FOIA request, OJP will withhold information in those records that plainly falls within the scope of the Privacy Act or one of the statutory exemptions under FOIA. (Some examples include certain types of information in budgets, and names and contact information for project staff other than certain key personnel.) In appropriate circumstances, OJP will request the views of the applicant/recipient that submitted a responsive document.

For example, if OJP receives a request pursuant to FOIA for an application submitted by a
nonprofit or for-profit organization or an institution of higher education, or for an application that involves research, OJP typically will contact the applicant/recipient that submitted the application and ask it to identify—quite precisely—any particular information in the application that the applicant/recipient believes falls under a FOIA exemption, the specific exemption it believes applies, and why. After considering the submission by the applicant/recipient, OJP makes an independent assessment regarding withholding information. OJP generally follows a similar process for requests pursuant to FOIA for applications that may contain law-enforcement sensitive information.

**Provide Feedback to OJP**

To assist OJP in improving its application and award processes, OJP encourages applicants to provide feedback on this solicitation, the application submission process, and/or the application review process. Provide feedback to OJPSolicitationFeedback@usdoj.gov.

IMPORTANT: This email is for feedback and suggestions only. OJP does not reply from this mailbox to messages it receives in this mailbox. Any prospective applicant that has specific questions on any program or technical aspect of the solicitation must use the appropriate telephone number or email listed on the front of this document to obtain information. These contacts are provided to help ensure that prospective applicants can directly reach an individual who can address specific questions in a timely manner.

If you are interested in being a reviewer for other OJP grant applications, please email your résumé to ojppreview@I-secb.com. (Do not send your résumé to the OJP Solicitation Feedback email account.) Note: Neither you nor anyone else from your organization or entity can be a peer reviewer in a competition in which you or your organization/entity has submitted an application.
## Appendix A: Performance Measures Table

<table>
<thead>
<tr>
<th>Objectives</th>
<th>Performance Measure(s)</th>
<th>Data Grantee Provides</th>
</tr>
</thead>
</table>
| Identify and promote technology solutions that target preventing, investigating, prosecuting, and responding to precipitous increases in specific crime(s). | Number of technology solutions implemented  
Percentage of tips resulting in an investigation resulting from this grant initiative  
Number of investigations resulting in an arrest resulting from this grant initiative.  
Percent decrease in the number of targeted crimes that occurred in the target area when compared to the baseline | After technology solution is implemented please report the following:  
Date the technology solution is implemented  
Type(s) of technology solution implemented  
During the reporting period:  
Number of tips or leads generated resulting from this grant initiative  
Of those, number of tip or leads resulting in further investigation resulting from this grant initiative  
Of those, number of investigations that lead to an arrest that resulting from this grant initiative.  
Reported at the beginning of grant activity (one time only).  
Baseline statistical data reflecting number of incidents of the specific targeted crime (by type) reported in the target area [NOTE: This should match what was reported in your solicitation (see Appendix C.)]  
To be reported prior to the closeout of the award (one time only).  
Number of incidents of the specific targeted crime (by type) reported in the target area |
Establish new and leverage existing partnerships to include other criminal justice entities, community organizations, and private/public providers to enhance the applicant’s ability to respond to these specific crimes within the target area.

| Number of agency partners with standard operating procedures incorporating the use of information sharing or other technology solution |
Appendix B: Application Checklist

FY 2018 Technology Innovation for Public Safety (TIPS) Addressing Precipitous Increases in Crime

This application checklist has been created to assist in developing an application.

What an Applicant Should Do:

Prior to Registering in Grants.gov:
_____ Acquire a DUNS Number (see page 27)
_____ Acquire or renew registration with SAM (see page 27)

To Register with Grants.gov:
_____ Acquire AOR and Grants.gov username/password (see page 27)
_____ Acquire AOR confirmation from the E-Biz POC (see page 27)

To Find Funding Opportunity:
_____ Search for the Funding Opportunity on Grants.gov (see page 27)
_____ Access Funding Opportunity
_____ Sign up for Grants.gov email notifications (optional) (see page 25)
_____ Read Important Notice: Applying for Grants in Grants.gov
_____ Read OJP policy and guidance on conference approval, planning, and reporting available at ojp.gov/financialguide/DOJ/PostawardRequirements/chapter3.10a.htm (see page 12)

After Application Submission, Receive Grants.gov Email Notifications That:
_____ (1) application has been received,
_____ (2) application has either been successfully validated or rejected with errors (see page 28)

If No Grants.gov Receipt, and Validation or Error Notifications are Received:
_____ contact BJA regarding experiencing technical difficulties (see page 28)

Overview of Post-Award Legal Requirements:

Scope Requirement:
_____ The federal amount requested is within the allowable limit(s) of up to $500,000.

Eligibility Requirement: refer to the eligibility requirements on the title page.
What an Application Should Include:

- Application for Federal Assistance (SF-424) (see page 13)
- Intergovernmental Review (see page 14)
- *Statement of Eligibility (see page 14)
- *Project Abstract (see page 14)
- *Program Narrative (see page 15)
- *Budget Detail Worksheet (see page 17)
- *Budget Narrative (see page 17)
- Indirect Cost Rate Agreement (if applicable) (see page 19)
- Financial Management and System of Internal Controls Questionnaire (see page 20)
- Disclosure of Lobbying Activities (SF-LLL) (see page 21)
- Additional Attachments
  - Timeline and Position Descriptions (see page 21)
  - Applicant Disclosure of Pending Applications (see page 21)
  - Research and Evaluation Independence and Integrity (see page 22)
  - Disclosure of Process related to Executive Compensation (see page 24)
  - Request and Justification for Employee Compensation Waiver (if applicable) (see page 11)

*Note:* These elements are the basic minimum requirements for applications. Applications that do not include these elements shall not proceed to peer review nor receive further funding consideration by BJA.
Appendix C: Sample Format for Statement of Eligibility Document

Please list each crime type separately on a new row if your project intends to address multiple types of crime that showed precipitous or extraordinary increases. Please limit the justification to no more than 2 pages (excluding directions and definitions).

<table>
<thead>
<tr>
<th>Definitions:</th>
</tr>
</thead>
<tbody>
<tr>
<td><strong>Crime Problem of Focus:</strong> The crime problem of focus is the specific crime(s) that has been identified that meets the precipitous increase in crime criteria. Please specify the type of crime that was identified to have increased significantly. Examples include gun crime, homicide, domestic violence, or burglary.</td>
</tr>
<tr>
<td><strong>Description of the Target Area:</strong> The target area refers to the geographic areas of emphasis in which the interventions will take place. These areas may be a neighborhood, police district or precinct, or city.</td>
</tr>
<tr>
<td><strong>Population of the Target Area:</strong> The population of the target area is the estimated population that most closely represents the target area. You can find the target area population, if not otherwise available, from the U.S. Census Bureau website at: <a href="http://www.census.gov/2010census/popmap/">http://www.census.gov/2010census/popmap/</a>.</td>
</tr>
<tr>
<td><strong>Year 1 Rate:</strong> The year 1 rate is a measure of crime standardized for comparison. The year 1 rate should be expressed in the form of a ratio; expressed per a standardized population often 100,000 (e.g., 205 aggravated assaults per 100,000 population). The rate is derived by first dividing a jurisdiction’s population by 100,000 and then dividing the number of offenses by the resulting figure. For more instructions please review the UCR Data Tool at: <a href="https://www.ucrdatatool.gov/data/crimestatisticsfordecisionmaking.doc">https://www.ucrdatatool.gov/data/crimestatisticsfordecisionmaking.doc</a>.</td>
</tr>
<tr>
<td><strong>Year 1 Total Offenses:</strong> The year 1 total is the number of offenses recorded within the base year used for comparison (e.g., 300 aggravated assaults in 2016).</td>
</tr>
<tr>
<td><strong>Year 2 Rate:</strong> The year 2 rate is a measure of offenses committed during the current year or the year that experienced the precipitous crime increase. It should be expressed in the form of a ratio (e.g., 205 aggravated assaults per 100,000 population).</td>
</tr>
<tr>
<td><strong>Year 2 Total Offenses:</strong> The year 2 total is the total number of offenses recorded within the current year (e.g., 500 aggravated assaults in 2017) or the year that experienced the precipitous crime increase.</td>
</tr>
<tr>
<td><strong>Percentage Change:</strong> The percentage change is the difference between year 1 and year 2. It is calculated by subtracting the base year rate and the current year rate and then dividing this by the base year rate. The result is then multiplied by 100 to calculate the percentage. Percentage Change = ((\text{Year 2 Rate} - \text{Year 1 Rate}) / \text{Year 1 Rate}) \times 100)</td>
</tr>
</tbody>
</table>

**NOTE:** If you are unable to estimate a population of the target area and calculate the year 1 and year 2 rates, please enter the total number of offenses in both the year 1 and year 2. Use these data points to calculate the percentage change.

**Narrative Justification:**

*Please describe how the solution and its related activities will address the crime problem(s) of focus and how the proposed solution will have an impact.*

Jonestown has experienced a nearly twofold increase in violent behavior, including aggravated assault and homicide, in the last 2 years. About 75 percent of our homicides and aggravated assaults over the 2-year period have been related to drug activity and dealer or gang disputes, specifically related to heroin and other opioids. Jonestown, being a suburb of Smithville with over one million residents, has not had these types of problems until recently. Many of the offenders we have arrested can be traced back to Smithville and the majority (well over two-thirds) are known suspects by Smithville’s law enforcement in unrelated investigations.

With this grant, the Jonestown Police Department (PD) proposes to work collaboratively with the Smithville PD by establishing a data-sharing agreement and crime analysis center participation agreement. Jonestown will use grant funds to modify its records management system (RMS) to interconnect with the regional crime analysis center led by the Smithville PD. We will also assign one fulltime crime analyst to the center, who will not be paid for with grant funds. Additionally, the Smithville PD plans to work with the FBI to gain access and contribute to the NDex, further enhancing our investigative tools. Our RMS is the same software platform as Smithville’s, and they already contribute to NDex giving us a roadmap to follow. Our planned RMS modifications will allow us to interconnect with the crime analysis center as well as the NDex. When complete, in terms of RMS, we will be on an equal footing as compared to our much larger neighbor, enabling seamless communication and cross jurisdictional investigations.

Our planned project will help to reduce aggravated assault and homicide incidents by increasing our ability to investigate, particularly when suspects are from out of our jurisdiction, which is the majority of our cases. We also believe this will increase efficiency and increase our case closure rate (and time to case closure) because it will knock down the existing barriers we currently have in terms of data sharing and cross jurisdictional investigations.
